The reason we have not been able to harness this power is because mankind does not have a clear understanding as to what life really is. In this book the author embarks on a thorough study of what life is, so the reader can then understand better how to access The Divine Life. Examples of the Divine Life being used throughout history are included, along with numerous historical references. **ISBN 9781585094080 • 180 pgs • 6x9 • \$16.95**

MAN'S HIGHER CONSCIOUSNESS, by Hilton Hotema. It is believed that there is a much higher spiritual intelligence that can be accessed by mankind through the trillions of cells in the body. A few people have successfully done this. As a result, they have gained access to miraculous and unused powers that mankind once had, but lost. According to the author, this Cosmic Intelligence is limited in man due to his diminished capacity to receive it. THE SOUL'S SECRET, by Hilton Hotema. Reveals the higher science needed to understand the soul. The first half of this book covers how the physical world works through standard Earth Science. The author then moves into the higher science, covering how it works and offers proof for the human soul. As a result, a more complete understanding of the "soul's secret" can be reached. This higher science was taught by the Ancient Astrologers, up until the fourth century AD. At this time, the Roman Church killed many of these teachers and destroyed their work, plunging the world into the Dark Ages, which lasted for a thousand years. Many of these teachings were incorporated by the Church, but were camouflaged into their texts. As a result, the original teachings lost their power and could only be understood cryptically or symbolically, if at all. The author shows how the books and dogma of modern religions have replaced the deeper wisdom previously attained through actual spiritual experience. Reveals proof of the human soul, the survival of bodily death, and the hidden power we have within us. **ISBN 9781585093977 • 88 pgs • 6x9 • \$11.95**

MY RELIGION, by Helen Keller. Keller had no hearing or eyesight from age two, but was one of the most inspiring people who ever lived. For years she functioned, in her words, simply as "an unconscious clod of earth." Then quite suddenly, she experienced the impact of "another mind" within her own. Despite not knowing where it came from or how it got there, she awoke to a new awareness of being able to talk and listen with her hands. She learned to read and write, wrote at least ten books, and attended college. Her religion developed from living

deeply within her spiritual self, cut off from normal sensation, and spending her life on a spiritual plane. Her experiences became incorporated with the teachings of Emanuel Swedenborg, who, like Keller, experienced other realms of spirit and transmitted teachings that Helen saw with great clarity. She wrote this book after receiving many requests for her to describe her religious beliefs. **ISBN 9781585092840 • 220 pgs • \$17.95**

most ancient mysteries about mankind,

proceeds up to modern times, and ends with where we are today from a religious and spiritual standpoint. Explores the possibility that we experienced some form of "outside intervention" in remote times which, in some ways, may still be with us today. **ISBN 1585091014 • 103 pgs • 6x9 • \$12.95**

PAST SHOCK SERIES, by Jack Barranger. The following four books compose this series, considered by many to be Jack's best work. He was a seminary graduate and taught English and Critical Thinking at the college level. Jack was one of the most brilliant and unforgettable people we've ever known, with a great sense of humor. He read every important book, saw thousands of movies, and wrote other works on self-help and religion, which we also publish. He opened the minds of hundreds of students by somehow convincing the college to allow him to teach "Past Shock" in his Critical Thinking classes. Jack Barranger passed on in November of 2016 at age 79, and we will always miss him greatly.

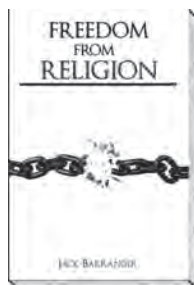

PAST SHOCK: The Origin of Religion and Its Impact on the Human Soul, by Jack Barranger. Alvin Toffler coined the term "future shock" – when people are overwhelmed by the future. *Past Shock* suggests that ancient events strongly impact humanity today. It reveals why religion

was created, what organized religion won't tell you, the reality of the "slave chip" programming that we all have, what really happened in the Garden of Eden, what the Tower of Babel was and why we were stopped from building it, how we were conditioned to remain spiritually ignorant, and more. Exposes the "pretender gods" – beings that were not divine, but had advanced scientific knowledge, including genetic engineering. Our science of today has begun to unravel their secrets. Learn how to overcome the "slave chip" conditioning and live life as a spiritually fulfilled being. **ISBN 1885395086 • 126 pgs • 6x9 • illustrated • \$12.95**

THE ORIGIN OF RELIGION AND ITS IMPACT ON THE HUMAN SOUL, by Jack Barranger. Was religion created in the minds of men or was it given to us by ancient gods, who demanded our worship? Who were the ancient gods and why were they here? Historical evi-

dence shows that we worked for them and tried to appease them. Then, at some point, they left. Cultures worldwide tell their stories through myth and they are still worshipped in our religions. Their power over us was so strong that it is still with us today. We have been conditioned in a religious way and Barranger shows how this conditioning is stunting our spiritual growth. The author reveals exactly how this slave chip has programmed us, and how we might finally break free. **ISBN 9781585091133 • 152 pgs • 6x9 • \$15.95**

FREEDOM FROM RELIGION, by Jack Barranger. Why does religion enslave people's minds as much as jails do to their bodies? And why do the victims try so hard to enslave others? Mankind has fought more wars over religion than for any other reason. How can we break free from these negative

patterns? Barranger is a trained theologian and former teacher of Critical Thinking. He sees little difference in thought patterns found in mainstream religions and cults because we have within us a "slave chip" that needs to be deprogrammed. He brings us through the process, step by step. For example, he lists The Ten Commandments, then follows them with his own list called The Ten Realizations, which can be used as a blueprint for spiritual freedom. It is often said that the most enslaved people are not even aware that they are in prison. With that in mind, this book will reveal the prison bars around us. The Introduction says, "Beware: Reading this book could set you free." **ISBN 9781585091164 • 128 pgs • 6x9 • \$14.95**

WHEN THE GODS RETURN, Book 4 of Past Shock, by Jack Barranger. We are being prepared, through the media and movies, for the day when we experience contact with alien beings. Aliens have been shown to be nice, and sometimes even cute and cuddly. The author says beware. When

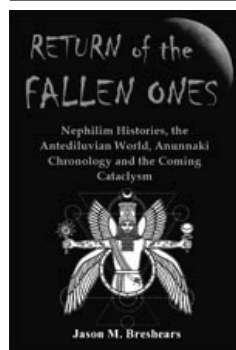

ancient man first made contact with these beings, they called themselves "gods" and demanded to be worshipped. Religion was born, which has caused more bloodshed and warfare than any invention of man. The gods divided us, made us fight their wars, and the religions of today maintain this servitude. Now that we are finally learning how to move past this confusion, signs are appearing that these gods may return to exploit us again. This book shows what we should do in the event of such a drastic scenario. **ISBN 9781585091430 • 114 pgs • 6x9 • \$12.95**

FLYING SERPENTS AND DRAGONS: The Story of Mankind's Reptilian Past, by R. A. Boulay. A highly original work that deals a shattering blow to all our preconceived notions about our past and human origins. Worldwide legends refer to giant flying lizards and dragons that

came to this planet and founded the ancient civilizations of Mesopotamia, Egypt, India and China. Who were these reptilian creatures? What was the real reason for man's creation? Why did Adam lose his chance at immortality in the Garden of Eden? Who were the Nephilim who descended from heaven and mated with human women? Why did the serpent take such a bad rap in history? Why didn't Adam and

Eve wear clothes? Why did the ancient Sumerians call their major gods USHUMGAL, which means "great fiery, flying serpent?" What were the "boats of heaven" in ancient Egypt and the "sky chariots" of the Bible? **ISBN 1885395388 • 276 pgs • 6x9 • illustrated • \$19.95**

RETURN OF THE FALLEN ONES: Nephilim Histories, the Antediluvian World, Anunnaki Chronology and the Coming Cataclysm, by Jason M. Breshears. There are stories of the gods who in ancient times descended to Earth and brought knowledge and civiliza-

tion to mankind. The oldest stories were from ancient Sumer and these gods were called the Anunnaki or Nephilim, also known as the Fallen Ones. They were considered fallen after co-mingling with the daughters of men, so their realm became the Earth rather than the "heaven" from which they came. Their offspring were said to be giants and these myths and legends are found throughout the world. The author spent years of study to reveal an accurate, chronological history of these ancient beings, unveiling in this book a calendar of events more accurate than anything previously known. This book takes vast research on worldwide myths, earth changes documented from cultures worldwide, and the author's immense work on planetary cycles to predict the return of these fallen ones, their planet, and the chaos and catastrophe that always came with them. **ISBN 9781585091539 • 260 pgs • 6x9 \$22.95**

THE LEGACY OF ZECHARIA SITCHIN, by M. J. Evans. A tribute to the life and work of Zecharia Sitchin, who taught us to think in new ways about our ancient past and the origins of mankind. He was one of about 200 people who could translate the first

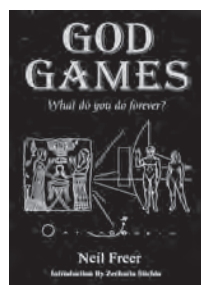

form of writing on earth - ancient Sumerian cuneiform script. By combining translated text with modern scientific knowledge and archaeological discoveries, he pieced together a more complete mosaic of mankind's shrouded past. He believed that mythological stories were not figments of people's imaginations, but records of real events, and spent his life proving it. As modern science catches up with ancient knowledge, we have continued to discover, largely through Sitchin's work, that the gods were once here and that they may return. M. J. Evans, Ph.D., presents a well researched overview of Sitchin's findings. Includes contributions by Paul Tice & Jack Barranger. **ISBN 9781585091362 • 6x9 • 172 pgs • \$18.95**

includes the oldest writing on Earth, the Sumerian cuneiform texts. It is here where the original creation stories and the flood story were found, both of which appeared in the bible in shorter and less detailed versions. With mounting evidence, many have come to the conclusion that these stories, long considered myth, were in fact real events and that the "gods" themselves were here. This book is based on this evidence and attempts to bring the truth of who we are and where we came from out into the open. After the author passed in 2016 his hard drive, containing his life's work, became this, his last book, a crowning achievement that should be in the library of any serious researcher into the origins of mankind. OF HEAVEN AND EARTH: Essays Presented at the First Sitchin Studies Day, by Zecharia Sitchin and others. Covers Sitchin's theories on the origins of mankind and the intervention of intelligence from beyond the Earth. He and the other contributors offer a scholarly approach to the ancient astronaut theory. Contains the complete transcripts of the first Sitchin Studies Day held in Denver, Colorado in 1996. After Sitchin's main presentation are chapters by philosopher Neil Freer, UFO expert J. Antonio Huneus, clergyman Father Charles Moore, author V. Susan Ferguson, and two university professors, Madeleine Briskin and Marlene Evans. Like Sitchin, they believe that certain myths were real events instead of imaginative stories. Sitchin's work is the early part of a new paradigm — one that is beginning to shake the very foundations of religion, archaeology and our society in general. LEARN EGYPTIAN HIEROGLYPHICS: Easy Lessons with Matching English Text, by E. A. Wallis Budge. The most fascinating language of the ancient world is that of the Egyptian hieroglyphics, as seen on countless tombs and temples that remain to this day in Egypt. What do they say? The only way to learn what these symbols mean is to study the ancient texts. Many of them are reproduced here with matching English translations. This rare text was previously published under the misleading title of *Egyptian Language*, and is now back in print. It is the standard introduction to Egyptian hieroglyphics, written by one of the greatest Egyptologists

of his time, E. A. Wallis Budge. Budge was once Keeper of the Egyptian Antiquities in the British Museum. As a result, he goes beyond translation lessons by revealing a fascinating history of hieroglyphic writing, including how the code to its understanding was cracked, and the overall evolution of the language. EARTH CHANGES: PAST & FUTURE

ANUNNAKI HOMEWORLD: Orbital History and 2046 Return of Planet Nibiru, by Jason M. Breshears. The

Anunnaki is a legendary race that appears in the oldest documents of mankind. Their planet is said to orbit our sun

in an extremely elliptical orbit and create cataclysms on Earth whenever it returns to our vicinity. The work of Zecharia Sitchin focuses on the Anunnaki and their previous visits. Sitchin never gave an exact date for their return, but Breshears gives an exact year, and does so confidently due to extensive research. He delves not only into historical records, as Sitchin had done, but also uses scientific cycles and mathematical formulas that relate to planetary time and orbits. The historical records are chronologically presented and help in identifying cyclical patterns. Also employs advanced geometry, interprets complex crop circle patterns, and uses biblical prophecy to support some of the events he has predicted. Goes beyond interpreting ancient stories and presents carefully documented proof. **ISBN 9781585091348 • 8.5x11 • 164 pgs • \$24.95**

WHEN THE SUN DARKENS: Orbital History and 2040 AD Return of Planet Phoenix, by Jason M. Breshears. Throughout

Earth's history there have been major cataclysmic events. These events have resulted in

large-scale climactic changes, mythological stories of floods, visitations from the skies, and sometimes the complete extinction of life. The major planetary body that has caused much of this carnage has been called Phoenix. By piecing together ancient documents from the most reputable sources available, we have, in this book, the most extensive and accurate rendering of the cycle of the Phoenix, including when it will come again. Some of us, according to the author, will live to see its return. Presents foundational scientific evidence tied in with Bible prophecies that relate directly to it. Breaks new ground on this subject, due to the extensive research involved. **ISBN 9781585091171 • 6x9 • 126 pgs • \$14.95**

NOSTRADAMUS AND THE PLANETS OF APOCALYPSE: New Evidence for the Global Disasters Coming in 2040 and 2046 AD, by Jason M. Breshears. The code for understanding the

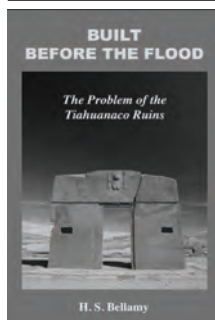

prophecies of Nostradamus and when they will occur has been revealed in this book. It takes the work of Mario Reading, who first broke the code, and shows how it applies perfectly to Breshears' predictions for 2040 and 2046. Mr. Reading made mistakes that did not involve his code, so his work has been largely dismissed – but Breshears brings Reading's work back to life with stunning clarity. Also covered is Mother Shipton, who made the same predictions as Breshears and Nostradamus concerning two large scale global catastrophes that will occur six years apart. **ISBN 9781585091409 • 115 pgs • 6x9 • \$14.95**

LOST CIVILIZATIONS / ATLANTIS

Also includes secret traditions regarding the Sphinx and why it appears older than the pyramids – but is not, and historical records showing that the Great Pyramid was built to preserve knowledge and survive through a planetary cataclysm. **ISBN 9781585091447 • 220 pgs • 6x9 • \$21.95**

BUILT BEFORE THE FLOOD: The Problem of the Tiahuanaco Ruins, by H. S. Bellamy. The ancient site of Tiahuanaco in Bolivia is one of the greatest archaeological mysteries in the world. Some experts date it to 17,000 years ago, although

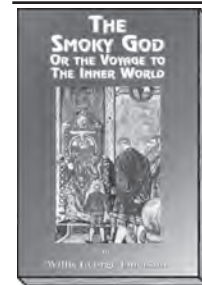

no one has conclusively determined its age. Located at the southern end of Lake Titicaca at about 13,000 feet above sea level, one can find oceanic seashells in the area and ruins of extensive docks on an earlier shoreline. How could this be? This book takes a radical approach by presenting evidence, found at Tiahuanaco, for Earth having

had a different moon in the remote past. According to the author, the gravitational pull of this moon caused higher water levels in the area and a different rotational spin of the Earth that is accurately documented in the ancient calendar, found and interpreted by the author and others, that appears on the face of Tiahuanaco's most iconic landmark, the Gate of the Sun. This well researched book contains many notes, charts, and diagrams to support the author's claims, as well as an Index and Bibliography for further reference. **ISBN 9781585093960 • 209 pgs • 6x9 • \$16.95**

Spence puts forth evidence that it was located in and around Central America. THE ORIGIN AND SIGNIFICANCE OF THE GREAT PYRAMID, by C. Staniland Wake. One of the most profound mysteries of the world towers above the desert sands of Egypt – the Great Pyramid. Who built this amazing monument and why? When was it completed? This book gathers information from numerous sources, including spiritual, mathematical, astronomical, astrological and religious areas. Reveals that no evidence exists for it having ever been a tomb, despite the constant reference for it in textbooks. Wake claims the pyramid was a monument of Sabaism (an early religious cult) and of serpent worship. The serpent was important in early Egyptian religion and mythology, but only Wake seems to have drawn this interesting connection. **ISBN 1585090867 • 148 pgs • 6x9 • illustrated • \$13.95**

CHRISTIANITY / LOST BOOKS

THE BOOK OF ENOCH: A Work of Visionary Revelation and Prophecy, Revealing Divine Secrets and Fantastic Information about Creation, Salvation, Heaven and Hell, translated by R. H. Charles. The most important book in early Christianity. Charles,

the translator, said, "The influence of I Enoch on the New Testament has been greater than that of all the other apocryphal and pseudepigraphical books put together." One influence was its explanation of evil coming into the world with the "fallen angels." Enoch was a scribe, writing a petition on behalf of these fallen ones, to be given to higher powers for judgment. He was chosen for this because he was not an angel. It seems Christianity adopted ideas and philosophies from this book, including the Final Judgment, the concept of demons, the Resurrection, the origins of evil, and the coming of a Messiah and Messianic Kingdom. Of importance not only to the study of Christianity's origins, but to the possible reality of angelic visitations and other-worldly visions. **ISBN 9781585092635 • 96 pgs • 5.5x8.5 • \$11.95**

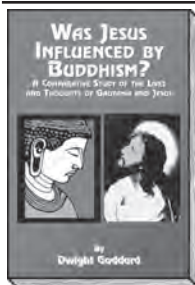

THE BOOK OF ENOCH: Translated from the Editor's Ethiopic Text and Edited with an Enlarged Introduction, Notes and Indexes, Together with a Reprint of the Greek Fragments, edited by R. H. Charles. The most important book left out of the

Bible. It seems to have predated much of the New Testament, having been written almost entirely in the second century. Charles said, "The influence of I Enoch on the New Testament has been greater than that of all the other apocryphal and pseudepigraphical books put together." A direct translation from the Ethiopic language (beware of inferior versions). All the important notes are included here, along with a list of every known translation and how they contributed to our knowledge. This is by far the most thorough edition which every serious researcher and student should have. It first appeared in 1912. Five years later, in 1917, the slimmer version (see above) replaced this book, making it almost impossible to find until now. **ISBN 1585090808 • 448 pgs • 6x9 • \$34.95**

our fallen natures we are still able to reach into the wholeness of spirit. Through meditative work and deeper awareness we are able to pierce the veil, or "Cloud," and to experience our divine natures. Great book for Christians and non-Christians alike. **ISBN 9781585092772 • 104 pgs • \$12.95**

WAS JESUS INFLUENCED BY BUDDHISM? A Comparative Study of the Lives and Thoughts of Gautama and Jesus, by Dwight Goddard. Buddhism began and flourished five hundred years before Jesus was ever born. This is a long

time for a religion to grow, so Jesus could have easily been influenced by Buddhist teachings, as proposed by this book. Many years in the life of Jesus remain unaccounted for. Reveals evidence that the Essenes, of whom Jesus had contact with and may have been a member himself, had strong Buddhist influences. The parallels between Jesus and the Buddha are more than just a coincidence. **ISBN 1585090271 • 252 pgs • 6x9 • \$19.95**

WHAT IS CHRISTIANITY? Sixteen Lectures Delivered in the University of Berlin 1899-1900, by Adolf von Harnack. Harnack's work is considered by many theologians to be unsurpassed. His approach is not meant

to prove any set of dogmatic beliefs, as many Christian scholars intend, but is historically objective. He is not trying to save souls or convert readers. He states early in the book that this is simply an historical approach to the question, What is Christianity? Includes a fascinating study on how Roman Catholicism came into power during the 3rd to 6th centuries, and what important facets of the Christian religion were added during this time. **ISBN 9781585092727 • 312 pgs • 6x9 • \$24.95**

THE LOST BOOKS OF THE BIBLE OR THE APOCRYPHAL NEW TESTAMENT, assembled by William Hone, translated by William Wake and Jeremiah Jones. First published in 1820 under the title *The Apocryphal New Testament*. Available in

create the most clear and readable version possible, which is updated into modern English. This book's popularity is due to its personal approach toward the reader. One can focus on self-improvement through inner work, based on Christ's teachings, via prayer and meditation. This process includes lessons that elevate one's inner spiritual nature toward a Christ-like way of being, rather than following outward rules that more often fail. **ISBN 9781585093854 • 150 pgs • 6x9 • \$12.95**

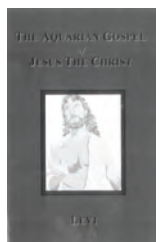

DEMONOLOGY, by King James I of England. Includes *News From Scotland, on the Death of a Notable Sorcerer*. King James was responsible for the King James Bible, but before that came this book. He believed himself to be an instrument of God,

THE BOOK OF THE SECRETS OF ENOCH, translated from the Slavonic by W.R. Morfill. Edited, with Introduction and Notes by R. H. Charles. For 1200 years this book was known to only a few people in Russia. When finally revealed to the world in 1892, it was thought to

be a Slavonic version of *The Book of Enoch*, but once translated we've found it to be different, but equally important. A completely new and valuable pseudepigraph, recommended to those interested in apocalyptic literature and the origins of Christianity. **ISBN 1585090204 • 148 pgs • 5.5x8.5 • \$13.95**

THE VISION OF GOD, by Nicholas of Cusa. Nicholas was a Christian mystic who lived during the 1400s. This classic of Christian mysticism has put countless believers in touch with the divine. Many Christians have a desire to experience

God, in addition to just believing in Him. An excellent guidebook for those who sense something deeper to the Christian experience. The author spent much time with a group of Benedictine monks who had asked for spiritual guidance. He responded with this book in December of 1453. **ISBN 1585090042 • 160 pgs • 5x8 • \$13.95**

THE UNKNOWN LIFE OF JESUS CHRIST

by Nicolas Notovitch. Throughout ancient texts there is no record of Jesus or his whereabouts between the ages of twelve up to thirty, being known as the lost years of Jesus. This book claims to reveal those lost years. The author, a

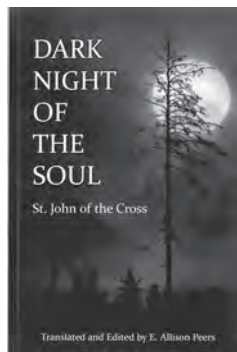

Russian journalist and war correspondent, claimed to have found these important manuscripts during his travels through Kashmir and Ladakh in 1894, in a monastery in Tibet. He has reproduced them here, in this book. **ISBN 9781585093588 • 112 pgs • 6x9 • \$12.95**

HUS THE HERETIC

by Poggius the Papist and Paul Tice. John Hus was one of the greatest religious and spiritual pioneers to ever grace this earth, and experts agree that the Reformation would have never been possible without him paving the way. He paid for his beliefs, however, by

being burned at the stake in 1415 at age 42. This book is composed of three sections meant to provide the most complete picture of Hus ever assembled. The main section contains two letters from Poggius, a witness to the trial, to a friend. He worked for the Church, but became secretly allied with Hus. The section from Paul Tice covers the beliefs, motivations and friendships of Hus. Last is a six-page farewell letter written to his followers the night before his execution. **ISBN 1585092320 • 124 pgs • 6x9 • \$12.95**

DARK NIGHT OF THE SOUL

by St. John of the Cross. This Book Tree edition is the complete version, containing all original notes and references. It is one of the most important books on spiritual growth ever written. The author was a great mystic who experienced this "dark

Many who have found God through a life-changing breakthrough have experienced this dark night first, and this book shows what to expect and how to address such a major challenge. **ISBN 9781585093625 • 198 pgs • 6x9 • \$15.95**

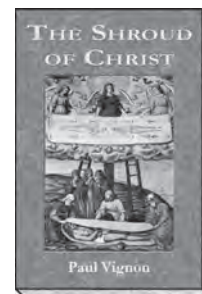

HISTORY OF THE WALDENSES, by Paul Tice and the author of *The Lives of Wycliffe, Huss, Jerome, etc.* The Waldenses created one of the greatest spiritual movements the world has ever known, yet few people have heard of them. In spite of terrible persecution, their heritage is still alive and well today. They were devout Christians who tried to follow the original teachings of Jesus to the best of their abilities. The Church opposed them, blocking their efforts to translate the Bible out of Latin so that common people could read it. This rare book tells of their struggle to survive against a much larger and more powerful foe. It is told from the Waldenses' point of view, destroying the belief that all we knew of them had come from their enemies. **ISBN 1585090999 • 180 pgs • 6x9 • \$15.95**

CODEx SINAITICUS: The Discovery of the World's Oldest Bible

by Dr. Constantin Tischendorf. Also includes *The Mount Sinai Manuscript of the Bible*, by the Trustees of the British Museum. Tischendorf was one of the world's leading biblical

scholars of his time, with his primary goal being to find the earliest scriptures in existence. Starting in 1844 his greatest discovery was made. While visiting St. Catherine's monastery in the Sinai, he found what would later be confirmed as the oldest complete New Testament bible ever found, with most of the Old Testament included as well. This book is his entire first-hand account of this amazing discovery, followed by his assessment of its historical importance. *The Mount Sinai Manuscript of the Bible*, also included here, was written shortly after the manuscript arrived in England. It outlines the known history of this bible and its importance to the world. Today, after years of study by scholars, this codex has revealed what the original scriptures may have looked like and what portions could have been later added. **ISBN 9781585093670 • 114 pgs • 5.5x8.5 • \$12.95**

THE SHROUD OF CHRIST

by Paul Vignon. Is the Shroud of Turin the burial cloth of Christ? Jesus is said to have been buried while wrapped in this cloth, which may account for the mysterious "burned-in" image of a man exhibiting the same wounds Christ is

believed to have had as a result of his crucifixion. This was the first book showing the Shroud's photographic breakthrough – it broke the story to the world. Study this amazing discovery and the

original research that supports the shroud as being a genuine relic from Christ. **ISBN 1885395965 • 184 pgs • 6x9 • illustrated • \$16.95**

by Charles B. Waite. The Introduction states, "We believe this work to be the most complete, honest and best documented work available on this subject. We present this

work hoping that the facts presented will be more highly esteemed than common dogma and tradition." The author devoted years of intense and reliable study in the Library of Congress, with the help of insiders, to create this work. JUDAISM / LOST BOOKS

SEPHER YETZIRAH, THE BOOK OF CREATION: Two Versions, Explaining Jewish Mystical Philosophy and the Cabala

attributed to Rabbi Akiba, translations by Rev. Dr. Isidor Kalisch and Knut Stenring. Considered to be the oldest known

Jewish mystical text and now an important part of Cabalistic studies. First appeared in historical records during the first century C.E., but its principles were passed down for centuries before this. Written from the perspective of an observer who describes the work of God's creation step by step, as it unfolds. Having access to two separate translations in one volume is of immense importance. Often considered a meditative text, as presented in the first version by Kalisch, and also as a magical text, as found in the second version by Stenring. Kalisch provides original Hebrew on one page, with its English translation on the other. **ISBN 9781585092826 • 128 pgs • 5.5x8.5 • \$12.95**

THE BOOK OF JASHER: A Suppressed Book that was Removed from the Bible, Referred to in Joshua and Second Samuel

translated by Albinus Alcuin (800 AD). Some sources claim this book was once the original start of the Bible. We do know at one time that it

was once part of the Bible, being referred to in Joshua and Second Samuel. It also survived the burning of the 15

Alexandria Library in 389 AD due to a fast acting custodian. Alcuin later did the original translation of it from Hebrew in 800 AD. It became suppressed but rediscovered briefly in 1829. Only now has it become widely known. Special note: A more common 64 page version is in circulation, but is a proven forgery. **ISBN 1585090816 • 304 pgs • 6x9 • \$24.95**

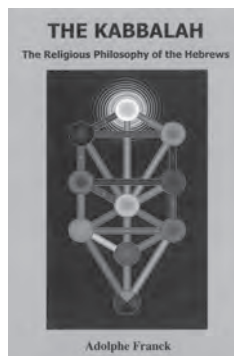

THE APOCALYPSE OF BARUCH, translated from the Syriac by R. H. Charles. An important text excluded from the Bible. Written in the first person by Baruch, who describes his experiences before and after the destruction of Jerusalem in 67 AD. Is a compilation of

prophecies and revelations which have been surprisingly accurate in light of modern history. After World Wars I and II the prophecies became clarified. Although Charles reflects skepticism of Baruch in some cases, it may no longer be warranted in light of these newer events. It is left to the reader to explore the value of these prophecies. An extensive Index lists all other scriptures that are connected to or closely parallel the text. An important addition for anyone involved in a serious study of apocryphal texts. **ISBN 9781585092598 • 184 pgs • \$15.95**

THE BOOK OF JUBILEES, translated by R. H. Charles. This important holy book sheds new light on Judaism and early Christianity. Was written between 250 BC and AD 100 by one or more Hellenistic Jews, and reflects a form of Jewish mystical thought

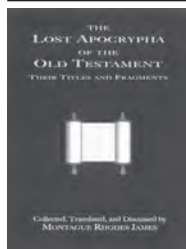

at about the time of Christ. Retells much of the Old Testament, but includes additional material not mentioned in the Bible. Relies heavily on *The Book of Enoch*, which was, like this book, translated from the Ethiopic. Covers Adam and Eve, the Fall of Man, Cain and Abel, the fall of the angels and their punishment, the deluge foretold, the ark and the flood, the tower of Babel and confusion of tongues, evil spirits, corruption of the human race, God's covenant, the Messianic Kingdom, Jacob's visions, prophetic dreams, more. **ISBN 158509238X • 224 pgs • 5.5x8.5 • \$18.95**

THE KABBALAH: The Religious Philosophy of the Hebrews, by Adolphe Franck. First published in French in 1843, this well-known classic is the first book that made the Kabbalah understandable and remains an essential reference today. The positive importance

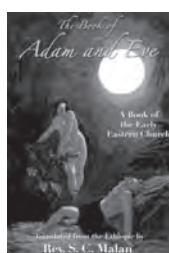

of the Kabbalah is explained, showing that no other doctrine in the history of philosophy or religion gives man a higher rank. It shows how we are in the 16 image of God and are the divine

presence on Earth. It explains the origin of man, his future destiny, and his relation to the Divine Being. The author also presents information on the history of Kabbalah, covering similarities with the Alexandrians, Gnostics, Platonists, Neoplatonists, Philo, and Christianity—but traces the strongest philosophical concepts back to the ancient Zoroastrians. Includes chapters on the *Sepher Yetzirah* and the *Zohar*, the two most definitive works on the Kabbalah, and traces them back many centuries before their first known publication. This book is essential for every serious student or practitioner of the Kabbalah. **ISBN 9781585093885 • 226 pgs • 6x9 • \$17.95**

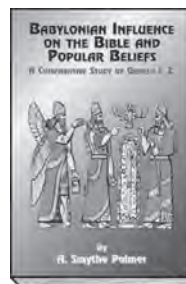

THE LOST APOCRYPHA OF THE OLD TESTAMENT: Their Titles and Fragments, collected and translated by Montague Rhodes James. Covers the most ancient, hard to find, lost books relating to the Bible, dating between

100 BCE and 100 CE. In many cases we have only sections and fragments, but quotations from the Ante-Nicene Fathers like Origen, Hippolytus and Clement of Alexandria are used to piece together what is missing. Also reveals what we know of other missing books that would otherwise be unheard of. Perfect for those researching lost and ancient texts. **ISBN 9781585092697 • 124 pgs • 5.5x8.5 • \$13.95**

BABYLONIAN INFLUENCE ON THE BIBLE AND POPULAR BELIEFS: A Comparative Study of Genesis 1.2., by A. Smythe Palmer. The Bible creation stories had their origins in far older tales. These stories originate from clay tablets discovered in

ancient Sumeria and Babylonia. They are the oldest preserved stories in the world, revealed in this interesting book. It seems the "Word of God" may not have come in its entirety from God, but older "gods." The earliest sources of our belief systems should be examined and that is the purpose of this book. **ISBN 158509000X • 124 pgs • 6x9 • \$12.95**

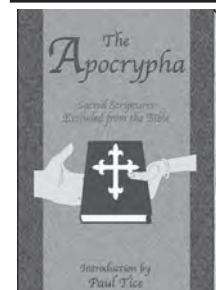

THE FORGOTTEN BOOKS OF EDEN: Lost Books of the Old Testament, edited by Rutherford H. Platt. Contains twenty ancient books excluded from the Old Testament. Some were later preserved by the Christian Church as Apocryphal writings,

often inserted between the Old and New Testaments. They were originally recognized by the Jews as Pseudepigrapha because they were attributed to people long since passed who did not write them, in an effort to give them sanctity. These are reproduced here. Some titles include The First and Second Books of Adam and Eve, The Secrets of Enoch, The Psalms of Solomon, The Odes of Solomon, The Story of Ahikar, and The Testaments of the 12 Patriarchs. Adds another interesting dimension to lost Biblical texts. **ISBN 9781585092703 • 280 pgs • 6x9 • \$22.95**

THE TALMUD, translated from the original by H. Polano. One of the most important holy books of the Hebrew religion and of the world. No English translation of the book existed until the author presented this condensed work. To this day, very little of the

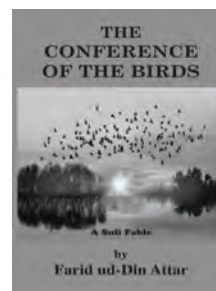

actual text seems available in English — although we find many interpretive commentaries on what it is supposed to mean. Has a reputation for being long and difficult to digest, but Polano has taken what he believed to be the best material and put it into extremely readable form. On par with The Koran, The Bhagavad-Gita and the Bible, in importance. This book allows many to experience The Talmud who may not otherwise have the chance. **ISBN 1585092371 • 384 pgs • 5.5x8.5 • \$27.95**

THE APOCRYPHA, Introduction by Paul Tice. The Apocrypha books were excluded from the Bible, yet consist of writings that were considered sacred by certain religious sects. These books had their origins in early Judaism and were later adopted

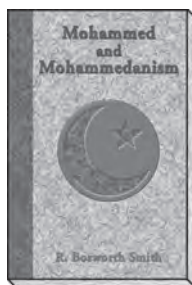

by Christianity. This is sometimes referred to as *The Apocrypha Proper*, or the *Apocrypha of the Old Testament*. Some of these works remained with the canonical scriptures in both Judaism and early Christianity, despite their official exclusion. **ISBN 1585090530 • 188 pgs • 6x9 • \$15.95**

existence. We are those same birds, seeking our place among each other in this world, while on the path of our soul's journey to our union with God. The author, Attar, was a twelfth-century Persian poet from the great mystical tradition of Sufism, which originated in the Middle East. He was a wise spiritual master as reflected in this magnificent work, widely regarded as a spiritual classic that has enlightened many a reader. Attar had a profound influence on the great poet Rumi, with both men now considered as the two great pillars of Sufi mystic teachings. After about one thousand years, this work remains an essential text for anyone seeking true wisdom. **ISBN 9781585094431 • 156 pgs • 6x9 • \$14.95**

MOHAMMED AND MOHAMMEDANISM, by R. Bosworth Smith. Islam has been the fastest growing religion in the world for many years, founded by the prophet Mohammed, who lived from about C.E. 570-632. This book is meant to serve as a bridge between the

Islamic and Christian worlds. Some scholars claim that Islam and Christianity are on a "collision course," with no chance for harmony. This book proclaims the exact opposite – that common threads between these worlds are so strong that we can learn to respect each other. Jesus and Mohammed belong next to each other, as neither will go away or be destroyed. If equal recognition could occur then mutual respect would result. This book offers important ideas of harmony and respect between faiths. **ISBN 1585090859 • 280 pgs • 6x9 • \$22.95**

PAGAN AND CHRISTIAN CREEDS: Their Origin and Meaning, by Edward Carpenter. Shows where our religious concepts originated and reveals an evolutionary sequence that starts with phallic and procreative cults. Following this came a

cult of magic, where spirits and earth divinities were worshipped. Lastly, came the belief in actual God-figures that came down from heaven. THE ORIGIN AND EVOLUTION OF RELIGION, by Albert Churchward. Other than Sir James Frazer (*The Golden Bough*), Churchward is the only person to have written such a monumental work on religion. He encompasses the complete evolution of religious ideas. The first

THE MYSTERIES OF MITHRA, by Franz Cumont. The main Mithraic religion originated in ancient Hinduism, moved into Persia, found enormous popularity in Europe, and was ultimately destroyed by Christianity. One particular expression, found in this book, originated in the Roman Empire. Before Christianity stamped it out, it had gained strength rapidly and was the main pagan religion of its time. This book puts Christianity and Mithraism side by side in the Roman Empire and reveals exactly how and why Christianity survived and the Mithraism did not. Few can rival Cumont's knowledge in this area. Covers the principle characteristics of the god Mithra, the rituals, teachings, liturgy, art and more. THE DOCTRINE OF SIN IN THE BABYLONIAN RELIGION, by Julian Morgenstern. Most believe that sin first arose with Adam and Eve in the Garden of Eden. This means it is not of Christian origin. Christianity was not around for another two thousand years or more to include it in its belief structure. This book is a vital source for early religious truths. Offers an outstanding run-down on the early gods, who they were and what they stood for. Contains surprising information on our origins, the source of evil, the gods, and mankind's interactions with them. **ISBN 1585092045 • 168 pgs • 6x9 • \$15.95**

ARYAN SUN MYTHS, by Sarah Elizabeth Titcomb, Introduction by Charles Morris. Presents evidence that the earliest known mythologies concerning our sun have been handed down for centuries, now disguised or hidden in our current religious systems, including Christianity. Ancient sun myths became common to most cultures, which shared them when contacting each other. As a result, many pagan religions used different gods to represent the same sun myths. Christianity adopted some facets of the sun myth story to help unify pagan groups and make them more open to Christianity. Certain mythologies were added to the life of Jesus to make the religion more appealing. The evidence is hard to refute — but the degree of this union will always remain uncertain. **ISBN 1585090697 • 192 pgs • 6x9 • \$15.95**

In all of Indian literature none is more quoted than this work, which is considered to be the main religious text of Hinduism. The wisdom it conveys provides guidelines for daily living that have been followed for

centuries, including India's greatest spiritual leader, Mahatmas Gandhi. Of this book he said, "I have read almost all the English translations of it, and I regard Sir Edwin Arnold's as the best." **ISBN 158509224X • 124 pgs • 6x9 • \$12.95**

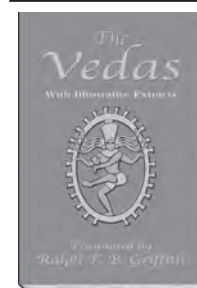

THE LIFE OF BUDDHA: Originally Written in the First Century, A.D., by Asvaghosha. This may be the oldest known story of the complete life of Buddha, having been written in the first century AD. The author was an educated ecclesiastic Buddhist who traveled throughout India collecting stories and traditions relating to the Buddha's life. He was a famous preacher and musician who then wove them into a Sanskrit poem which he performed musically during his travels. It holds many facts that other stories of the Buddha don't have, which makes this work so important. The entire epic is preserved in this rare book, long out of print, which may have otherwise been lost to the western world if not reprinted. **ISBN 1585092339 • 172 pgs • 6x9 • \$15.95**

B U D D H I S T S U T T A S: Major Scriptural Writings from Early Buddhism, by T.W. Rhys Davids, edited by Max Muller. These seven scriptural writings are considered to be the most important and oldest of the Buddhist religion. Originally written in the Pali language, they date to the fourth and third centuries BC. This early date is what makes them so important — they form the very core of Buddhist teachings, sought after and studied by monks and scholars for centuries. There could never be a complete understanding of the true meaning of Buddhism without them (previously published elsewhere at \$250, here is the first affordable version). **ISBN 1585090794 • 376 pgs • 6x9 • \$27.95**

THE TAO TE CHING, by Lao Tzu; translated by Isabella Mears. The most translated book in the world, next to the Bible. Great wisdom is found on every page. Lao Tzu is believed to have written the text in China in the sixth century BC. It forms the basis for Taoism, one of the world's great wisdom traditions. B U D D H I S T D I C T I O N A R Y: Manual of Buddhist Terms and Doctrines, by Nyanatiloka. This highly important book translates and clearly explains foundational Pali terms that are vital to a complete understanding of Buddhist philosophy and religion. It is an accurate, detailed, and authentic Buddhist dictionary of doctrinal terms from the Pali Canon and its Commentaries. It is of value for understanding the early Buddhist tradition and the Theravada tradition which grew out of it, but does not cover the later Buddhist traditions. The author, Nyanatiloka, was a German monk who compiled the book while interned in India by the British during World War II. Since then, it has been enlarged and revised — this being the third revised and enlarged edition. The main entries are listed under the Pali terms, and the English expressions commonly used are explained and included. Original Pali words are often used in Buddhist texts and remain untranslated, since writers often did not know their accurate meanings. Therefore, this book is widely known as an essential work for all serious students of Buddhism. **ISBN 9781585094523 232 pgs • 5.5x8.5 • \$18.95**

THE FOUNTAIN-HEAD OF RELIGION: A Comparative Study of the Principal Religions of the World and a Manifestation of Their Common Origin from the Vedas, by Ganga Prasad. Puts forth the idea that all great religions of the world have come from a

common source, *The Vedas*. They are the scriptures of the Hindu religion, thought by Hindus to have been written by wise men at the beginning of human history. The author traces important religious themes back to *The Vedas* like good and evil, the afterlife, resurrection, and the names used for God in Judaism, Christianity and Buddhism. Should be studied closely by anyone interested in the origin of religions. **ISBN 1585090549 • 276 pgs • 6x9 • \$22.95**

SADHANA: The Realisation of Life, by Rabindranath Tagore. It is said that the Hindu religion is the only one that teaches respect for all religions, not just their own. This is why this great spiritual book can appeal to anyone.

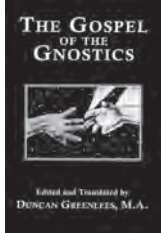

Tagore takes the very best wisdom from the Upanishads, the Bhagavad Gita, Buddhism and Christianity to reveal a powerful, common theme that can unite everyone. Tagore won the Nobel Prize for literature in 1913 and Albert Schweitzer called him one of the greatest thinkers of mankind. What is within these pages is what one would call the wisdom of the ages. It has helped transform many readers. Recommended for all who seek truth, spiritual growth and self-realization. **ISBN 9781585093540 • 178 pgs • 6x9 • \$16.95**

stages used, and the correct approach to general and advanced meditation practices. Other subjects include discipleship, reincarnation, concentration, and powers of the mind. The first half of the book is a guidebook, while the second half contains the *Yoga Aphorisms of Patanjali*. These sutras are valued by yoga practitioners and others because of the great wisdom they share. Was written from a practical perspective, meaning the author has experienced these things and shares his methods, rather than having researched and written it from an academic view. **ISBN 9781585093342 • 248 pgs • 6x9 • \$19.95**

GNOSIS / HERMETICISM

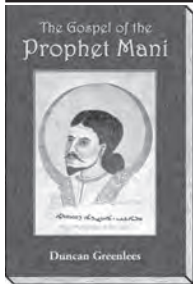

THE GOSPEL OF THE Gnostics, by Duncan Greenlees. One of the best books on the subject, essential for any serious researcher. Chapters include *The Soul is Sent Forth*, *Glory of the Indwelling Light*, *The Way to the Higher Mysteries*, *The Final Secret of the*

Self, and *The Soul Travels Home*. Based on rare, surviving Gnostic works like *Pistis Sophia* and the two *Books of Jeu*. Other sources include the Agnew Codex, Bruce Codex, Akhmim Codex, Jung Codex, Cairo Codex, the Gnostic Acts (of Peter, Andrew, John, Thomas and Philip), the Chaldean Oracles, and various Gnostic hymns, prayers, Gospels and papyri. A gold mine of Gnostic material, some translated and presented here for the first time. **ISBN 9781585090075 • 412 pgs • 5.5x8.5 • \$29.95**

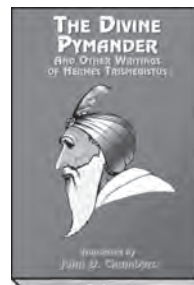

THE GOSPEL OF HERMES, by Duncan Greenlees. Translated from the Greek and Latin Hermetica. Hermes was the god of wisdom in ancient Greece, Egypt and elsewhere. The Hermetic books, although written anonymously, were said to be inspired by this

god of wisdom. The teachings were a major source of knowledge in the ancient world. In this book, Greenlees has collected together the most important Hermetic texts in one volume. He explains what the teachings really mean, and also uses columns to compare Hermetic verses with those from the Gospels of Jesus, Islam, China, Zarathustra and the Mystic Christ. **ISBN 9781585090068 • 328 pgs • 5.5x8.5 • \$26.95**

THE GOSPEL OF THE PROPHET MANI, by Duncan Greenlees. For centuries Manicheism was a powerful and far-reaching religion, rivaled only by Christianity, but today it has been almost entirely removed from the memory of humankind. This book

contributes a wealth of new information that would otherwise be lost to history. The author has assembled every known fragment of the Manichean faith that could be found in order to accurately portray its doctrines and teachings. The information is presented without bias to document this movement and its history accurately. From an historical point of view it shows what Christianity was truly up against and why Manicheism remained so popular for so long. It lasted for over one thousand years in various forms. Most books by Mani have been lost or destroyed while his followers were killed and persecuted for centuries. What has been recovered has been painstakingly pieced together in this important work for the benefit of scholars and those interested in alternative spiritual paths. **ISBN 9781585095025 • 580 pgs • hardcover • \$59.95**

THE DIVINE PYMANDER: And Other Writings of Hermes Trismegistus, translated by John D. Chambers. Within these pages lies a gold mine of wisdom. The author, Hermes Trismegistus, may not have been a single person, but the information is illuminating and relevant.

These teachings have been often referred to by the greatest Greek philosophers and the Church Fathers of Christianity. Tertullian and Justin Martyr once stated that if anyone wanted to learn about God, they should listen to Hermes. He and/or the writers of this work likely lived in Alexandria, and were influenced by early Christian and Gnostic ideas. **ISBN 1585090468 • 196 pgs • 6x9 • \$16.95**

CHRISTOS: The Religion of the Future, by William Kingsland. According to the author, our evolution has three stages: the physical, the mental, and then the spiritual. Most are still in the mental stage and our religions are a reflection of this. As we become more spiritually aware, our religions will

have to change. Concerning Christianity, Kingsland said, "There are two courses open to it: either to strip itself of its pagan accretions and get back to the simple religion of Jesus, or to recognize the allegorical nature of its present literalized Scriptures, and to understand and teach the real and original Gnosis from which these sprang: the real inner spiritual meaning as known to the Initiates who formulated them." **ISBN 9781585093250 • 136 pgs • \$14.95**

THE GNOSIS: Or Ancient Wisdom in the Christian Scriptures, by William Kingsland. Goes back to the foundational teachings of Christianity and demonstrates that they were actually derived from the Gnosis, or Ancient Wisdom. Gnosis is a

Greek word meaning "knowledge," or "to know." In the early Church those who were mystics, or Gnostics, were rejected and considered heretics. This book identifies certain mystical teachings from early times as rightfully belonging in the Church. According to Kingsland, this is the real Christian message as originally understood by the Gospel writers. **ISBN 1585090476 • 232 pgs • 6x9 • \$18.95**

THE HYMN OF THE ROBE OF GLORY: A Gnostic Poem, translated by G. R. S. Mead. Also known as *The Hymn of the Pearl*, it is an important Gnostic text and should be essential reading for anyone interested in early mystical literature. It is an

allegorical tale. Instead of an outer journey, as what seems to be initially described, it is meant to be interpreted as an inner, deeper journey with far more spiritual significance than seen on the surface. The overall message can be quite profound, depending on the reader's level of spiritual understanding. **ISBN 1585092533 • 100 pgs • 6x9 • \$11.95**

PISTIS SOPHIA, translated by G.R.S. Mead. The Gnostics consisted of a number of early Christian mystical sects. Their teachers were persecuted and documents destroyed because the Church desired a uniform set of beliefs to operate under. Only now have we begun to better appreciate them. *Pistis Sophia* was the most important Gnostic document until the discovery of *The Nag Hammadi Library*. This work remains an important milestone in Gnostic research. It is the story of how we, as spiritual beings, have fallen into the world of physical creation. The soul is asleep here, bogged down in physical surroundings, unaware of its true nature. The purpose of this gospel is to awaken us, and aid in the process of spiritual freedom. Hard & soft cover versions. **ISBN 9781585092673 • 388 pgs • 5.5x8.5 • hardback • \$55.00 • ISBN 1585092398 • paper • \$27.95**

have many magical skills. To this day, a skilled magician is called a "magus." He also studied Greek philosophers, especially Heraclitus, and was the first Christian to attempt to bridge Greek philosophy and Christianity. If a bridge ever occurred, Church leaders feared they would weaken over time and not survive. According to Mead, this was Simon's great heresy – not his magic. This book shows Magus to have been a brilliant man who was breaking new ground, philosophically and spiritually. **ISBN 1585092312 • 108 pgs • 6x9 • \$12.95**

SIMON MAGUS: His Philosophy and Teachings, by G.R.S. Mead. Simon Magus was originally a Christian and disciple of John the Baptist, but broke off and formed the first Christian heresy, called Simonianism. After learning magical medicine in Alexandria he was considered to

THE HISTORY OF THE CHRISTIAN RELIGION AND THE CHURCH DURING THE FIRST THREE CENTURIES, by Augustus Neander. Neander was one of the greatest religious historians to have ever lived. In this abbreviated version of a larger work, he covers

the current of Gnostic ideas during the formation of Christianity. It outlines all of the competitive beliefs that were at work at the time and how they affected the Christian struggle in both good and bad ways. This rare book may cause one to

never look at Christianity in the same way again, due to its scholarship and facts not found elsewhere. **ISBN 1585090778 • 112 pgs • 6x9 • \$12.95**

THE RELIGION OF MAN, by Rabindranath Tagore. The title leads one to believe that this may be just another boring book about our religions—but the author presents us with an entirely new religion that will make more sense to many readers than any of the religions that we

have today. Tagore was a man of wisdom who won the Nobel Prize for Literature in 1913 and was one of India's greatest poets. His personal mystical experiences, rather than any philosophical reasoning, led him to the Religion of Man, as he termed it. The God of this religion is an Eternal Spirit of unity that can be found within the heart of every person rather than in the sky. Each person is on a path to discover our unity with one another, so that we may one day be released from division and separateness, which results in war and hatred. This book can open one's mind into a new level of consciousness. **ISBN 9781585093922 • 240 pgs • 5.5x8.5 • \$18.95**

THE KYBALION: A Study of the Hermetic Philosophy of Ancient Egypt and Greece, by Three Initiates. Based on the Ancient Hermetic Philosophy of Hermes Trismegistus. It was claimed that the basic Hermetic doctrines were passed from teacher to student for

many centuries and were known as The Kybalion. This important book has had a profound effect on many people – something that few books can claim. Those who live by its principles will enjoy a lifetime of spiritual growth and strength. This book was a trusted source for many important Hermetic writers of the 19th and 20th centuries. Its principles can be applied to any religious, spiritual or magical tradition. **ISBN 1585092436 • 5.5x8.5 • 224 pgs • \$17.95**

THE ALBIGENSIAN HERESY, by H. J. Warner. Also known as Cathars, the Albigenians were mostly from Southern France. The Roman Church launched a twenty-year crusade against them from 1209 to 1229, making this the only one ever

launched against fellow Christians. This book explains why their beliefs upset the Roman Church, and covers many of the leaders involved. This highly spiritual movement attracted those who were upset with the corruption and control coming from the Church at the time. The Church

reacted with severe brutality in order to stop this competing spiritual expression that was spreading so rapidly. Focuses on the clash of beliefs and political maneuvering more than the physical battles and warfare, to provide a clear understanding of the Cathar belief system. **ISBN 9781585092932 • 96 pgs • \$12.95**

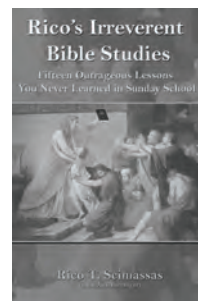

RELIGIOUS CONTROVERSY

NOTES FROM THE CHRISTIAN CIRCUS, by Jack Barranger. A

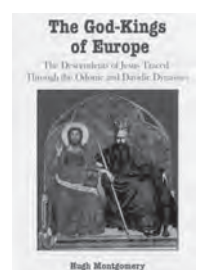

strange search for truth by a Christian seeker at the time. Explores the pitfalls, strengths, and weaknesses found in groups and followers that tried to guide him on the fundamentalist path. Despite his

disappointments he maintains a sense of humor through it all, chronicling a thought provoking and, at times, outrageous adventure. This book is not anti-Christian or anti-religion. It is anti-stupidity and anti-hypocrisy. The author cares about our relationship with God and with one's truth much more than he cares about our relationship to authoritarian groups, social organizations or entrenched dogmas. **ISBN 9781585091478 • 116 pages • 6x9 • \$13.95**

THE GOD-KINGS OF EUROPE: The Descendants of Jesus Traced through the Odonic and Davidic Dynasties, by Dr. Hugh Montgomery. After many years of research and with the help of scholars from around the world, we now have one of the most scholarly examinations of the heritage of Jesus and European rulers to date. The

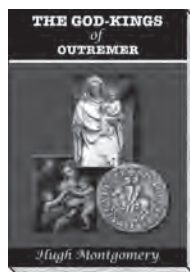

The Book Tree 1(800) 700-Tree 21

implications are enormous as they involve a lineage traced back to Odin, once believed to be a Norse god, whose lineage then merged with the bloodline of Jesus Christ himself. Those who have dismissed the idea of a lineage from Jesus have not taken the time to examine Dr. Montgomery's books – this being his first. His work goes far beyond mere speculation. It fills in many holes that existed previously and brings all the relevant pieces together in one place for the first time. A must for those interested in confirming a bloodline from Jesus and in the way Europe has been ruled for centuries. **ISBN 9781585091096 • 180 pgs • 6x9 • \$18.95**

THE GOD-KINGS OF THE VIKINGS, by Hugh Montgomery. Expanded and updated Book Two of the *God-Kings* trilogy (originally titled *The God-Kings of England*), which traces the descendants of Jesus down through the ages. Other books purport to do this with great fanfare, however this tri-

logy quietly goes about it in an academic style, often based on rare supporting documents that in some cases no other researchers have had access to. This includes the results of important DNA studies. In this volume we pick up the trail of direct descendants with Maria of the Elchasaites. She married the King of the Visigoths, Ataulf, which started the great Viking Ulfungar dynasty. A detailed history of these families follows, covering the years 850 to 1086 C.E. Details important historical events relating to this bloodline, including the conquest of England herself. Includes accurate, carefully researched genealogies and DNA related evidence supportive to the thesis. More direct reference to Jesus was in Volume One, but a bigger picture is at work here that, once grasped, reveals a new understanding of world events. If you thought the idea of a "bloodline from Jesus" was improbable, then you need to look again, very closely, at the entire *God-Kings* trilogy. **ISBN 9781585091249 • 176 pgs • 6x9 • \$18.95**

THE GOD-KINGS OF OUTREMER, by Dr. Hugh Montgomery. Book Three of the *God-Kings* trilogy. At the Council of Nicea in 325 A.D. the actual genealogy of the family of Jesus was presented so the Council could decide on how Jesus should be presented from within the Church. His human

side was *rejected* and from that day forth, the accurate genealogy of Jesus has been covered up. Until now. This book continues the research into the descendents of Jesus, bringing us to the time following the First Crusade. After its success, a number of Crusader states were set up in and around the Kingdom of Jerusalem, an area ruled by the claimed descendents of Jesus. This work follows genuine and proven sources, sometimes using historical documents (reproduced in this book) that no one else has access to. Dr. Montgomery's work, above all others, gives the claim for Jesus having

descendents more credibility than found in all other sources. His work continues to be discovered by those interested in provable research and new documents regarding a bloodline from Jesus. When their power waned in Outremer the descendents returned to Europe, where they survive to this very day. **ISBN 9781585091195 • 192 pgs • \$18.95**

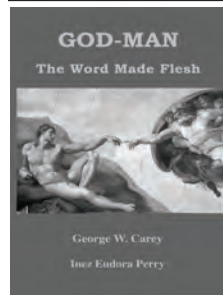

RELIGION MUST DIE, by Rich Stanit. The author believes in God, but not in religion. By using the texts, scriptures and teachings of most global religions, the author provides ample evidence as to why religions must die. Most religions provide all the ammunition needed to

use against them, while other belief systems are criticized by the author through reasoned argument and common sense. Offers the reader a choice: abandon religion and walk forward into the light of rational thinking, or nurture religion and take a leap back into the darkness of ignorance, blind faith and superstition. This is a philosophical work, written by a deist. It supports proof for God's existence and provides the reader with an explanation of the meaning of life. **ISBN 9781585091089 • 152 pgs • 6x9 • \$15.95**

JUMPIN' JEHOVAH: Exposing the Atrocities of the Old Testament God, by Paul Tice. Updated 3rd edition. By reading this book, your views on God will never be the same. With clear Biblical evidence, Jehovah is shown to be an entity with no sense of ethics, forgiveness, or compassion. Was Jehovah a god, or a demon? Why did he never promise a heaven or any kind of reward to his followers? Does any entity that murders thousands of devoted followers deserve to be worshipped? Jehovah has stopped punishing people in terrible ways, so it's probably safe to buy this book. **ISBN 1585091126 • 104 pgs • 6x9 • \$13.95**

GOD-MAN: The Word Made Flesh, by George W. Carey and Inez Eudora Perry. There is a divine part of mankind. It exists mostly as potential but it can be reached, according to the authors. A large body of surprising evidence is presented in this book, not only from

Christian scriptures, but religious, scientific, and occult teachings from around the world. The authors meant this to serve as a guidebook for "godhood," to help mankind take the final steps into spiritual freedom. Much of this work reveals hidden wisdom found in the Christian scriptures. The authors claim that the recognition and experience of eternal unity, as taught in the scriptures, will save mankind rather than the belief in vicarious atonement. This fascinating book clearly explains the meanings of the fables, parables and allegories that are found in ancient texts. **ISBN 9781585093984 • 178 pgs • \$16.95**

JESUS: God, Man, or Myth? An Examination of the Evidence, by Herbert Cutner. Did pagan mythologies represent Christ's "miracles" in order to convince them to accept the faith? Beyond these miracles Cutner claims there is little evidence to prove

that Jesus was a man. He says the Apostle Paul never portrayed Jesus as a man, but as a spiritual being. To Paul, Christ is found in a spiritual sense within oneself, as opposed to being an actual historical personage. When the Church accepted Paul, this inner reflection was transformed by the Church into an actual man – a savior – to create an understanding for the masses. Paul was almost rejected because his views were a "danger" to those who might rely on their own spiritual knowledge, rather than the Church's authority. **ISBN 1585090727 • 304 pgs • 6x9 • \$23.95**

HISTORY OF THE FIRST COUNCIL OF NICE: A World's Christian Convention, A.D. 325, by Dean Dudley. Includes *The Life of Constantine*, who came to power in ruthless fashion and orchestrated the Council. He approved Christianity in 313 for

the entire Roman Empire after murderous plots brought him to power. This included the elimination of close relatives who might otherwise challenge his crown. The first major council in Christendom, it endorsed erroneous concepts that were accepted after those opposed were forced to leave the Council. Reveals how Christianity as we know it today was created during a political power struggle, and how important facets of the religion were created to serve political agendas rather than the truth. **ISBN 1585090239 • 132 pgs • 5.5x8.5 • \$12.95**

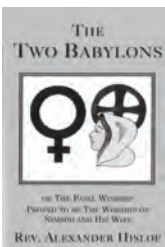

BIOGRAPHY OF SATAN: Exposing the Origins of the Devil, by Kersey Graves. If the devil exists, where is he? Is he really in a place called hell? If so, where is that? This well-researched book exposes much about the devil. Topics include the origins of hell,

where the Christian devil was borrowed from, why the church needed a "bad guy" to represent evil, what the words devil and hell really meant in the Old Testament, "endless punishment" and its devastating effects, the devil's twin brother – God, and why God was the author of evil according to the Bible. These and other startling facts are found in this work. Don't accept the reality of the devil blindly. Read this book and decide for yourself. **ISBN 1885395116 • 168 pgs • 5.5x8.5 • \$13.95**

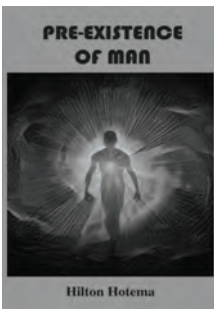

THE WORLD'S SIXTEEN CRUCIFIED SAVIORS, by Kersey Graves.

Before Christianity there were 15 other religions that had a savior who died for our sins, then rose from the dead. Provides all the details, plus more found in common including the immaculate conception of the gods, virgin born gods, magi, shepherds and angels who visit the infant saviors, the birthday of the gods being December 25th, plus an explanation on how Jesus began to be worshipped as a God. Also reveals 346 striking analogies between Christ and Krishna, the Hindu god. Could this once have been the same story? Graves says yes, this ever-present story is the common link between all early religions. **ISBN 1585090182 • 436 pgs • 5.5x8.5 • \$29.95**

THE TWO BABYLONS: Or The Papal Worship Proved to be the Worship of Nimrod and His Wife, by Alexander Hislop.

Presents evidence showing that virtually all of the practices of the Roman Catholic Church have been brought over from Paganism, replacing the original teachings of Jesus which have been either cast aside or corrupted. He sets forth proof that Rome is the Babylon of the Apocalypse and that Catholicism's priesthood, festivals, rites and ceremonies all derive from ancient Babylon. Includes notes, over 60 illustrations and index. **ISBN 9781585092734 • 356 pgs • \$27.95**

PRE-EXISTENCE OF MAN: Parts 1 and 2 Together, by Hilton Hotema.

This is an overview of the world's most important ancient knowledge. It begins with a brief summary of our knowledge within all of the major scientific fields, then explains why this great knowledge falls short. The author brings us to a new level by explaining how a pre-existent, spiritual structure exists as a foundation for science, how it works, and how it was once taught in the ancient world. He also reveals how the Western World lost the wisdom of the ancients and how Christianity was born, with both of these events being connected. It reveals how the priesthood of Rome created a New Religion in the 4th century, which became Christianity as we know it today. The author claims that this religion is based largely on legends of gods from India, Egypt, Greece, and Asia Minor, with much of the ancient knowledge having been intentionally destroyed or assimilated into the Bible itself. According to Hotema, the story of Jesus is based on the work of a Greek historian named Damis. Damis was educated by his master Apollonius, who had preserved and taught a great deal of the ancient knowledge. This book clearly explains the lost wisdom of the ancients while showing us where to look for it today. **ISBN 9781585093991 • 92 pgs • 6x9 • \$11.95**

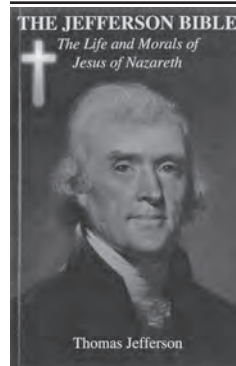

THE GODS: A LECTURE, by Robert Ingersoll.

Every culture has its gods. According to Ingersoll, we have failed to develop properly in moral and spiritual ways because the gods of man were made by man. They originally appeared within our flawed minds, and therefore resemble their flawed creators. The Gods cannot "rescue" us when they, like us, are in a constant battle for recognition and supremacy, either among themselves or with the gods of other religions. Will challenge your critical thinking skills and your beliefs about the nature of deity. Insightful book worth exploring. **ISBN 9781585093168 • 6x9 • 92 pgs • \$12.95**

SOME MISTAKES OF MOSES, by Robert G. Ingersoll.

Ingersoll was widely known as the greatest orator of his time and could soundly thrash any challenger in a debate — especially on religion. Many religious beliefs have no logic in them and Ingersoll was a master at exposing the outright cruelty, stupidity and foolishness that religions force us to embrace. Covers the Old Testament, worshipped by Jews and Christians alike, which supports things like slavery, warfare, polygamy and the idea that women should be treated as property. For example he asks: If you find slavery upheld in a book said to have been written by God, what would you expect to find in a book inspired by the devil? Also, why should God tell me how to raise my children when he chose to drown all of his in the flood? Presents two men being interviewed at the gates of heaven — an honest, loving family man and a despicable thieving businessman. Guess who gets into heaven based on their beliefs and who ends up in hell. **ISBN 9781585090600 • 280 pgs • \$22.95**

THE JEFFERSON BIBLE, by Thomas Jefferson.

Jefferson completed this book around 1820, at age 77. His aim was to reveal the most genuine teachings from the New Testament. He was trying to find the very essence of the Christian faith and to share it in its clearest form. When finished, it was bound together but never produced for distribution. After Jefferson passed away the book remained hidden within his family until it was purchased in 1895 for the National Museum, which became the Smithsonian Institution. Soon after, it was privately printed for Congressional members. Starting in 1905, each new Senator and Representative received a copy. One no longer needs to be a member of Congress in order to experience the beliefs of this brilliant third U.S. President. **ISBN 9781585093649 • 130 pgs • 5.5x8 • \$13.95**

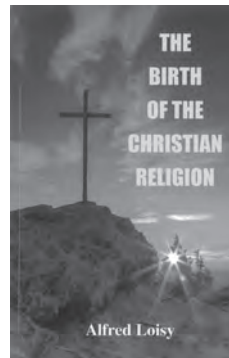

A SHORT HISTORY OF THE BIBLE, by Bronson C. Keeler.

Reveals that the books composing the Bible were originally not considered inspired at all, and that this idea came later. It shows who first endorsed them in this way and why it was done. Keeler admits to having no religious agenda in writing this book, but instead holds a simple desire to uncover the truth. Great book on the origins of the Bible, highly recommended. **ISBN 1585092053 • 136 pgs • 6x9 • \$13.95**

WHO IS THIS KING OF GLORY? A Critical Study of the Christos-Messiah Tradition, by Alvin Boyd Kuhn.

Reveals that much of Christianity did not originate in the Middle East. Shows how, where and why many Egyptian spiritual teachings were adopted into Christian form and accepted as "history." Kuhn states, "The gospels are not and never were histories. They are now proven to have been cryptic dramas of the spiritual evolution of humanity and of the history of the human soul in its earthly tabernacle of flesh." For Christianity to be expressed in the way it was first intended, as experienced during the first two centuries of its existence, one must acknowledge its pagan roots. The author reveals how things were altered in the third century by the existing Christian priesthood and why. **ISBN 9781585093182 • 512 pgs • paper • 6x9 • \$39.95**

THE BIRTH OF THE CHRISTIAN RELIGION, by Alfred Loisy.

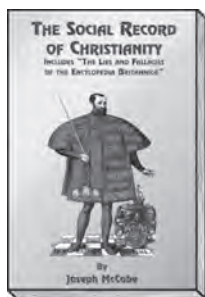

This book is arguably the most thorough and masterful book on the formation of Christianity ever written. It presents historical facts without many of the standard, Christian preconceived notions or beliefs attached. The author, Alfred Loisy, was a Roman Catholic priest in France until the age of 51. He was excommunicated from the Church in 1908, having been a leader of a movement within the Church known as "Catholic Modernism." They considered Christianity to be a living faith that changed with history and the growth in knowledge. They believed that truth could not be changed, but the representations of this truth could be changed, as done by the Church in some areas. They believed doctrine is not the same as history — which is why Loisy wrote this book. Some may claim it was written out of "sour grapes" after being excommunicated, but the expulsion merely freed him to explain the truth accurately. Scholars outside the control of the Church generally share Loisy's opinion. His most famous quote was that "Jesus came preaching the Kingdom, and what arrived 23

was the Church." He was so esteemed as a scholar, that he was appointed chair of history of religions in the Collège de France, where he served until 1931. He passed away in 1940, at the age of 83. **ISBN 9781585093908 • 414 pgs • 6x9 • \$29.95**

THE ORIGINS OF THE NEW TESTAMENT, by Alfred Loisy. Sometime around 180 AD, a biblical canon became necessary for the survival of the Church. Serious Gnostic threats already had gospels of their own, including Marcion, Valentinus, and Basilides. Loisy

shows how the Canon was put together and how it evolved from there. He was a respected Roman Catholic priest in France until the age of 51, so few can match his knowledge on this subject. The goal of the book is to map out the progressive evolution of the New Testament and, according to the author, show how the formation of the literature "was conditioned by the evolution of Christian propaganda." Loisy was foremost a Christian, who considered the New Testament to be a great achievement of humanity—but asserts that some later additions were required by "the needs of the moment," and closely examines the work of editors in each gospel. This scholarly and, at times, critical work was written to complement his other book, *The Birth of the Christian Religion* (see above). **ISBN 9781585093915 • 334 pgs • 6x9 • \$24.95**

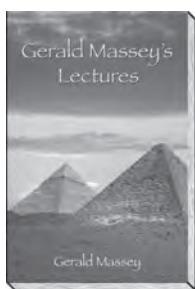

THE SOCIAL RECORD OF CHRISTIANITY, by Joseph McCabe. Includes *The Lies and Fallacies of the Encyclopedia Britannica*. Shows how Christianity has controlled the functions of society for centuries. Western civilization has been

dependent upon the Christian religion for its ethical and moral teachings and, ultimately, its conduct. McCabe demonstrates, however, that the moral and ethical conduct of western civilization has flaws and the chief cause has been Christianity. The Renaissance was a rebirth or revival of art, literature, and learning, with the major catalyst being Martin Luther's rebellious breakaway from the Church in 1524. It could not get started until the old ways of suppression were shaken, and today it has still not happened completely. According to McCabe, we keep this socially repressive system because it continues to function as an "authority." *The Lies and Fallacies* continues this theme, documenting an effort by clerical forces to remove historical facts surrounding Christianity. Shows how and why vital facts were either doctored or removed from the encyclopedia to cast Christianity into a better light. **ISBN 1585092150 • 204 pgs • 6x9 • \$17.95**

THE HISTORICAL JESUS AND THE MYTHICAL CHRIST: Separating Fact From Fiction, by Gerald Massey. Massey was an Egyptologist who wrote a tremendous body of scholarly work. He concluded that much of Christianity and its belief structure was rooted in ancient

Egyptian mythology. At first this sounds strange, but some respected researchers in the field of religious studies have since come to agree. Presents a different and compelling view of Christianity and its roots. **ISBN 1585090735 • 244 pgs • 6x9 • \$18.95**

GERALD MASSEY'S LECTURES, by Gerald Massey, a brilliant mythologist, Egyptologist, and researcher into the origins of Christianity. Most of the lectures found here cover these subjects, making this a perfect overview of his ideas. He often reveals ancient truths that bring a sudden understanding

to our more modern religious beliefs. Chapters include *The Logia of the Lord*, or the Pre-Christian Sayings Ascribed to Jesus the Christ; Gnostic and Historic Christianity; The Hebrew and other Creations Fundamentally Explained; The Devil of Darkness, or Evil in the Light of Evolution; Man in Search of His Soul During Fifty Thousand Years, and How He Found It; The Seven Souls of Man, and their Culmination in the Christ; and The Coming Religion. **ISBN 9781585093229 • 292 pgs • \$22.95**

THE AGE OF REASON, by Thomas Paine. Paine was a brilliant man who played a vital role in the American Revolution of 1776. This was the last book he wrote, which centers almost entirely on Christianity. To Paine, it made sense to question everything in order to make valid answers possible.

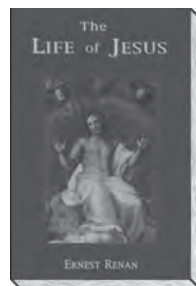

Considered one of the greatest works of freethought ever written; approaches Christian beliefs using rational thought and pure reason. **ISBN 1585092134 • 188 pgs • 6x9 • \$15.95**

OUR SUN-GOD: Or Christianity Before Christ, by John Denham Parsons. Some church fathers said the Christian religion predated the Christian era, including St. Augustine who said, "The very thing which is now called the Christian religion existed among the ancients also, nor was it wanting from the inception of

the human race until the coming of Christ in the flesh, at which point the true religion which was already in existence began to be called Christian." A number of pagan mythologies involving the sun may have been added to the Jesus story in order to bring the more stubborn pagans into the

Christian fold. Chapters include *The Sun-God of the New Testament*, *The Hebrew Scriptures*, and *Sun-God Worship in the Days of the Fathers*. **ISBN 9781585092970 • 212 pgs • \$18.95**

THE LIFE OF JESUS, by Ernest Renan. This was the first biography to present Jesus as a gifted and spiritual man, but as a man only. He had wisdom and taught using parables. He was opportunistic and clever in achieving his aims. According to Renan, Jesus became increasingly enthusiastic and fanatical, to the point of

deliberately allowing himself to be killed. Offers a different view of Jesus that has been both criticized and praised. Renan had abandoned the priesthood in 1845. This work sparked controversy because of his priesthood connection and caused him to be dismissed from the Chair of Hebrew at the Collège de France. Remains a controversial classic to this day. **ISBN 9781585092857 • 256 pgs • \$18.95**

THE DEVIL'S PULPIT: Or Astro-theological Sermons, by Rev. Robert Taylor. These sermons were meant to challenge the rigid and uncompromising views held by Christianity in England at the time. Rev. Taylor was originally a doctor who took up the holy orders in the Church. His desire to find the truth found him study-

ing the roots of Christianity and its connections to astrology and the signs of the zodiac. He concluded that Christianity is based on older religions and its rituals are directly descended from ancient Egyptian and pagan practices. His holy orders were revoked, he was banned from preaching in England, but continued in Ireland. He later returned, was arrested for blasphemy, and kept writing in jail. When released he toured the universities with a colleague, debating and beating virtually everyone with the material found in this book. Subjects include the origins of Christianity, the real purpose of Jesus and the apostles, and the importance of the zodiac and its symbolism in relation to Christianity. **ISBN 9781585092574 • 368 pgs • 6x9 • \$29.95**

THE DEVIL'S PULPIT, VOLUME TWO, by Rev. Robert Taylor. Includes the complete Memoir of Taylor's life, found only in the Book Tree edition. The sermons from both volumes stirred up more trouble in England than most anything else during this time. Taylor questioned every-

thing in the Christian faith that seemed deceitful and disgusting, which was being supported by those around him. As a result, he was shunned by family and friends, and ousted by the Church. He was jailed more than once and spent his prison time writing. Subjects include *The Dangers of Belief*, *The Origins & Purpose of the Devil*, *the Zodiac & the Old Testament*, *the Fall of Man*, *Noah*, *Who Was Abraham?*, *Origins of the Lord God*, and more. **ISBN 9781585093618 • 350 pgs • 6x9 • \$24.95**

THE BIBLE'S MOST EMBARRASSING MOMENTS, with an Introduction by Paul Tice. The Bible is often referred to as "the good book," but sometimes it's not. If they made the entire Bible into a movie it would be rated X.

Would you want your children to see it? Read this book and then decide. Don't bore yourself with the rest of the Bible – just read this one! All the boring stuff was taken out. Take a break from prime-time TV. Here's all the sex, bloodshed and murder you can stand – all yours for just a few measley bucks. For those who take the Bible literally, we only ask that you not use this as a guidebook for moral conduct. **ISBN 1585090255 • 172 pgs • 5x8 • \$14.95**

POPERY: Foe of the Church and the Republic, by Joseph F. Van Dyke. We never hear the word "popery" today, but it seems to be used in the same fashion as "thievery" or "thuggery." There have been many schemes and deceptions by the popes,

with an endless supply of hypocrisy, lies, and double-dealing dirt that's been exposed for your enjoyment in this book. It was not until the late 6th Century before the supremacy of the pope was accepted – and once popery began, Christianity was never the same again. Provides surprising information from an alternative point of view on how the Vatican came to be what it is today. **ISBN 1585090581 • 336 pgs • 6x9 • illustrated • \$25.95**

POCKET THEOLOGY, by Voltaire. A collection of quotes, aphorisms and definitions arranged alphabetically. It serves as a pocket dictionary of theology like none other found today. Virtually everything he wrote during his life on religion was immediately banned, so

this collection of "highlights" will allow the reader to understand why his views met with such hostility. No person or religion is perfect and Voltaire was able to use his sharp wit and sarcasm to point out these imperfections. Instead of making us angry at religious authority, he gives us the ability to laugh at their follies or ignorance. Some sections may still create a bit of anger, however. Otherwise, how could it be Voltaire? **ISBN 9781585093601 • 134 pgs • 5x8 • \$11.95**

HISTORY OF THE CROSS: The Pagan Origin and Idolatrous Adoption and Worship of the Image, by Henry Dana Ward. Ward wrote many positive Christian books, but one thing bothered him after years of research. He found that the traditional beliefs surround-

ing the cross and its worship were wrong. According to Ward, this was a pagan symbol that should never have been adopted. Idols were not to be worshipped by early Christians, and the cross was no exception. According to Ward, revering the cross is based on lies, deception, and ignorance. He shows how the lies began, who spread them, and how and why they did it. **ISBN 1585090565 • 104 pgs • 6x9 • illustrated • \$11.95**

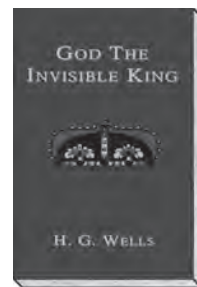

THE PAGANISM IN OUR CHRISTIANITY, by Arthur Weigall. It took three centuries after the death of Jesus for Christianity to become an organized religion, at the Council of Nicea in 325 AD. During this formative time it was difficult to compete and survive

with many forms of paganism, so a number of pagan practices were incorporated into the faith. Covers the influence of pagan gods, the trinity, miraculous occurrences, the composition of the New Testament, the resurrection, the doctrine of atonement, and more. The author believes Christianity should be what its name infers – based on the teachings of Christ, and not derived from other sources. Recommended to researchers on Christianity or the history of religions. **ISBN 9781585093281 • 282 pgs • 6x9 • \$22.95**

CRUX ANSATA: An Indictment of the Roman Catholic Church, by H. G. Wells. Besides writing science fiction like *The War of the Worlds* and *The Invisible Man*, Wells was interested in history and current events. This was written during World War

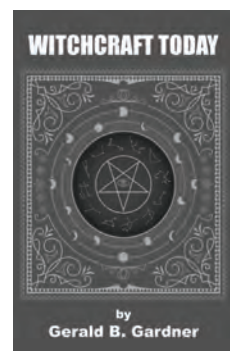

II, after he had resigned as Minister of Allied Propaganda. While there he learned things that shocked him concerning the Roman Catholic Church. Much of what he found is in this book. After it was released a loud protest came from the Catholic press accusing Wells, a respected writer, of spreading half-truths, innuendoes, and logical fallacies. He responded, saying the church routinely engages in a complex, modern boycott of liberal thought that requires us to fight this intolerance. This book was swept under the rug of history despite its respected author. **ISBN 158509210X • 160 pgs • 6x9 • \$14.95**

GOD THE INVISIBLE KING, by H. G. Wells. A good overview of God apart from religion. It is an effort to transmit the truest conception of God possible. Most religions claim God for themselves in an exclusionary fashion – you must be a follower of the chosen faith before He will

accept you into his kingdom. Wells rejects this view and believes that any man or woman who accepts God's love as one person connecting to their own creator, is fine. An intermediary, despite religious claims, is not necessary. We are all God's children. We are all seeking the same God, so to be dogmatic within a certain faith is small-minded and petty. If you want to explore an expanded view of God, then this book is for you. **ISBN 9781585092925 • 192 pgs • 6x9 • \$16.95**

WICCA AND PAGANISM

Witchcraft Today, by Gerald B. Gardner. From the "father of modern witchcraft" comes his best known work, *Witchcraft Today*. It is the first book to reveal the true origins of witchcraft and how it became what it is today. According to Wiccans, this book

forms the basis for what the Wiccan religion really is, and has therefore been sought after for many years. It is considered to be the definitive work on their religion and beliefs. This is a complete reproduction of the first edition, which includes a Foreword by Dr. Margaret Murray. Some additional photos were added, along with an Introduction by the esteemed Wiccan author, Raymond Buckland. This book should be in the library of every serious practitioner of Wicca or those interested in an accurate, historical portrayal of this fascinating form of belief. **ISBN 9781585094325 • 160 pgs • 6x9 • \$14.95**

ARADIA: Or the Gospel of the Witches, by Charles Leland. This first edition reprint tells how the author met a woman in Italy in the 1800's. She revealed to him Strega, or the Old Religion, which had its roots in religions that pre-dated Christianity.

An important book for modern Wiccans, with a great impact upon its beliefs. Gives anyone with an interest in religions what some of the more ancient beliefs may have been in earlier times. Also one of the standard texts for Wiccans. An important document called the Charge of the Goddess was taken from this book, although not named so here. An essential Wiccan/pagan text. **ISBN 1585092428 • 6x9 • 152 pgs • \$13.95**

THE MALLEUS MALEFICARUM: The Notorious Handbook Once Used to Condemn and Punish "Witches," by Heinrich Kramer and James Sprenger. One of the most notorious books in history. Thousands of innocent people, especially women, lost their lives

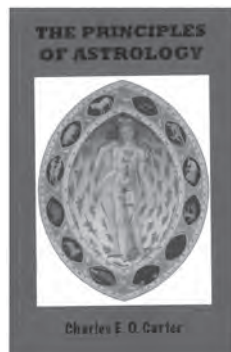

at its expense. First published around 1489, shortly after the invention of the printing press and five years after a papal bull was issued legitimizing the belief in witches. It went through at least 30 printings and became the handbook for witch hunters, both Protestant and Catholic. Bishops and secular authorities could prosecute witches if there were no representatives from the Inquisition around, with this book giving full directions. Some villages were left with as few as two women. This book should be read because there are lessons to be learned and there is an ignorance to overcome. A fascinating study of mass hysteria, greed, and delusional behavior that has not completely vanished from our society. **ISBN 1585090980 • 332 pgs • 6x9 • \$25.95**

COMPENDIUM MALEFICARUM: A Handbook on Witchcraft from the 1600's, by Francesco Maria Guazzo, edited by Montague Summers. Were witches real in the Middle Ages? This handbook on witchcraft, first published in 1628, claims to expose the

entire practice and profession of witchcraft. Was used as support in the accusation of witches at the time, although we can recognize much of it today as being paranoid superstition by religious authorities. The book is valuable because it allows one to view the extreme superstition surrounding witchcraft at the time, and to better understand the degree of persecution that resulted. **ISBN 1585092460 • 228 pgs • 6x9 • illustrated • \$18.95**

ASTROLOGY / TAROT / DIVINATION

THE PRINCIPLES OF ASTROLOGY, by Charles E. O. Carter. This has long been considered one of the best books for the beginner and intermediate in Astrology, having been written by a man who taught thousands of people over many years. It was written to

remove the complexities that can interfere with learning Astrology properly, and bring the process to the reader step-by-step. The reader will gain a clear understanding of the astrological signs, planets, houses, and aspects in chapter one, so that in chapter two, one can put a horoscope together. More detailed information follows this, so by the time one reaches the end they

have all that is needed to work with Astrology in a highly proficient manner. This book is considered to be the source for much of the modern works on Astrology, so it would make sense to go straight to the main source. **ISBN 9781585093830 • 190 pgs • 5.5x8.5 • \$16.95**

A DESCRIPTION OF THE CARDS OF THE TAROT, by Aleister Crowley. A complete study of the cards of the tarot. Each is presented with a detailed description that is highly useful for those who read the cards or want to better understand the symbolism. Includes sections on the 36 decans and

their relationship to the planets and days of the week, a special chart of the four characteristics of the court cards, how to determine if a card is strong or weak, and reveals a method of divination in the back that is used by Crowley's students. A concise handbook recommended to those serious about the tarot. **ISBN 9781585093076 • 80 pgs • \$11.95**

THE KEY TO THE TAROT, by L.W. de Laurence. One of the most in depth books on the Tarot available. Any person wishing to conduct card readings will find it highly useful. The standard Rider-Waite deck is used here, but other decks will still work since it's not essential

for the images to match perfectly. Each card is pictured and includes a description of the symbolic meaning. Various layouts and ways to read the cards are provided, plus a section on additional meanings is included in the back. **ISBN 158509207X • 180 pgs • 6x9 • \$15.95**

THE ZODIAC AND THE BIBLE: The End of the World, by Emmet Fox. What does the Bible really say about the Zodiac? How did the Zodiac and astrology influence biblical writers and why do Christians warn us to stay away from astrology today? Is there an encoded astrological message in many Biblical teachings? If so, what is it? The end of an old age and the beginning of a new one could be coming soon, according to the author. **booklet, 30 pgs, \$6.95**

THE LAND OF LIGHT: An In-Depth Interpretation of the Tarot and Other Ancient Mysteries, by Hilton Hotema. This book includes an in-depth interpretation of the Tarot, based on the ancient philosophy. This ancient teaching symbolized

cosmic phenomena, which was presented to the neophyte in the sacred drama of initiation in the Ancient Mystery schools.

These schools were long considered to be the most important of the ancient world, until much of their teachings were destroyed by new religions of the time. Anyone interested in accurately interpreting the cards will find a wealth of information within these pages. Evidence presented shows that the Tarot was in possession of the men who made the Bible. They knew the original Tarot symbolism, and then destroyed the cards so completely that no trace of them was found for another one thousand years. Evidence is presented of pagan roots found in Christianity throughout the book, which is quite surprising and worthy of investigation. In addition to covering the Tarot, the author shares ancient knowledge passed down relating to the greatest mysteries of existence, including reincarnation, resurrection, and eternal life. **ISBN 9781585094011 8.5x11 • 182 pgs • \$24.95**

THE INFLUENCE OF THE ZODIAC UPON HUMAN LIFE, by Eleanor Kirk. Her best work. It is believed that parts of the human anatomy, along with the mind, are influenced by corresponding planets. Explains how we are affected, both mentally and physically,

by the zodiac. Great for readers who want to cover the whole person, both mental and physical, in their readings, or for those who want to learn more about themselves, friends or family. DIARY OF A DRUG FIEND, by Aleister Crowley. Although written as a novel, Crowley admitted it was true. With his black magick and occult background the press called him "The Wickedest Man in the World." This included drug use, and this book brings the reader into

the minds of users. It explains how one can be drawn in and trapped by addictive drugs like cocaine and heroin, including why efforts to quit fail while the user's life is ruined. Crowley explains the use of the Will, found in some of his magical works, in attempting to combat the problem. Considered by some as his best-written work, it reveals the amazing highs and the complete ruin that can follow. ISBN 1585092452 • 6x9 • 376 pgs • \$27.95

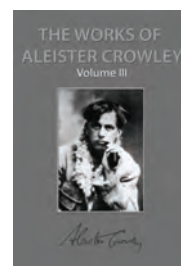

THE WORKS OF ALEISTER CROWLEY VOL. ONE, by Aleister Crowley. His work from 1898-1902, mainly on religion and mythology. Reflects a time in his life when he was awakening to a new mystical and spiritual level. It can also be seen how

Crowley continued to grow and mature in the two remaining volumes, as well. Crowley's poetic style and mystical vocabulary are unique and go beyond that of everyday poets. His plays are also interesting. Crowley said that the last play, "Tanhauser: The Story of All Time," contained the theory of special relativity, which Einstein clarified more fully three years later, in 1905. This volume contains four poems, five plays, four sections of shorter poems, an Epilogue, and an interesting Appendix on Qabalistic Dogma. ISBN 9781585093502 • 6x9 • 280 pgs • \$22.95

over into his next great achievement, *The Equinox*. Almost half this volume contains the poem *Orpheus: A Lyrical Legend*, which glorifies mythical characters with complex rhyming schemes that mirror his later incantations to various gods. ISBN 9781585093526 • 6x9 • 258 pgs • \$19.95

THE 6TH AND 7TH BOOKS OF MOSES

Introduction by Paul Tice. It is believed these magical books were translated from the ancient Hebrew. The *Sixth Book* contains "secret seals" used in magical rituals. Each is presented with a matching conjuration – a verbal spell sum-

Carrying one with you or to a certain area may bring wealth, love, or good luck. Also covers magic done in the Bible, and a Kabala section reveals secret wisdom, charms and remedies, and magical cures of the ancient Hebrews. If used with good intentions, this book claims to bring good fortune. **ISBN 158509045X • 188 pgs • 6x9 • illustrated • \$16.95**

PERPETUAL PEACE, by Immanuel Kant. Before we can eliminate war, we should know exactly what it is and why we engage in it. Kant does a brilliant job in revealing this, along with the actions we should take. Mankind has been at war with one another since the beginning of time and has continually experienced its heartache and devastation. The vicious pattern will continue until we find a way to satisfy ourselves without the "benefit" of drenching our hands in blood. This is the challenge addressed in this work. It could contribute much toward peace if those with the ability to effect change should listen and act upon his ideas. Legislation is proposed within this book, including articles of law, for the world to consider. Billions are spent on war every day, so this book is meant for world leaders and those working for peace. **ISBN 9781585093199 • 80 pgs • \$10.95**

STOLEN LEGACY: How the Wisdom of Ancient Egypt was Transformed into Greek Philosophy, by George James. James was a professor at a small black college in Arkansas during the 1950s when he wrote this book. He was an

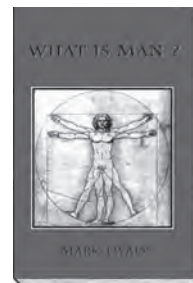

intellectual who studied African and European classics. He soon realized a mistake was made by Western scholars. James found that philosophy began almost entirely in ancient Egypt, not with the Greeks, and that the records of this had not only been distorted but, in many cases, deliberately falsified. He concluded there was no such thing as Greek philosophy because it was stolen from the Egyptians. Even the famous Greek historian from the 5th century, Herodotus, admitted that the Greeks had borrowed many important ideas and concepts from the Egyptians. These ideas covered not just philosophy, but medicine, architecture, politics and more. This book, one of the first to be banned from US colleges, is meant to restore the truth about African contributions to higher thought and culture. **ISBN 9781585093489 • 220 pgs • 6x9 • \$16.95**

THE PRINCE, by Machiavelli. He was an Italian diplomat, historian and political theorist who wrote this book around 1513. In 1512 the Medici's came to power and he lost his post in Florence. He wrote this in a possible effort to win them over and get back into politics. It is now the world's most well-known political book, considered the first written on modern political philosophy, where effective truth is more important than abstract ideals. Therefore, immoral means are acceptable if used to achieve the aims of princes and politicians. This may have been necessary at the time, but people like Diderot and Jean-Jacques Rousseau considered *The Prince* to be more of a satire. Whatever its purpose, it is one of the most brilliant books ever written. **ISBN 9781585093496 • 116 pgs • \$12.95**

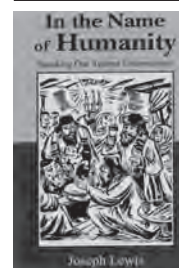

THE IDEA OF THE HOLY: An Inquiry into the Non-Rational Factor in the Idea of the Divine and Its Relation to the Rational, by Rudolf Otto. This book is considered a classic in the field of religious philosophy. It explores the timeless message of what we mean by what is holy and what is God. Otto coined the term "numinous" in this book by trying to define the first-hand experience of our deepest, non-rational moments of awe in the presence of God. When one has a direct confrontation with transcendent powers, it creates a starting point for the numinous experience. Otto presents here the many ways in which one may experience the numinous. This work is challenging and rewarding because it succeeds in defining something that is beyond words. **ISBN 9781585093793 • 256 pgs • 5.5x8.5 • \$18.95**

WHAT IS MAN?, by Mark Twain. This was Twain's most serious, philosophical and private book. He kept it locked in his desk and referred to it as his Bible when he read passages to friends. He had written it, rewritten it, was finally satisfied with it, but still chose not to release it until after his death. It appears in the form of a dialogue between an old man and a young man who discuss who and what mankind really is. Shows a new way of looking at who we are and the way we live. Reveals Twain as a brilliant philosopher. **ISBN 9781585093007 • 116 pgs • 5.5x8.5 • \$12.95**

ALTERNATIVE HEALTH / MEDICAL

IN THE NAME OF HUMANITY: Speaking Out Against Circumcision, by Joseph Lewis. How and why did circumcision begin? Does every male child that comes into the world really have a birth defect? What outdated beliefs have also caused women to suffer for centuries? If we were created in the image of God, as the Bible tells us, then why are we mutilating our children? These questions and more are asked by the author. He shares extensive research showing circumcision to be cruel, brutal and unnecessary, in addition to being completely unnatural. **ISBN 1585092290 • 160 pgs • 6x9 • \$14.95**

CHINESE HERBAL MEDICINE, by C.P. Li, M.D. Many Chinese herbal remedies have been proven to work, but have not been adopted into Western medicine to any degree. Most of the natural medicines described in this book are from ancient sources. They were developed at a time when China prohibited foreigners and chose to remain isolated from the world. Today we are discovering how valuable many of the early Chinese medical breakthroughs are. This well researched book was written by a scientist. **ISBN 1585092193 • 132 pgs • 6x9 • \$13.95**

SHAMANISM AND ENTHEOGENS

MUSHROOMS AND MANKIND: The Impact of Mushrooms on Human Consciousness and Religion, by James Arthur. Uncovers the natural link between man, consciousness and God, due to mankind's age-old symbiotic relationship with mushrooms. This discovery

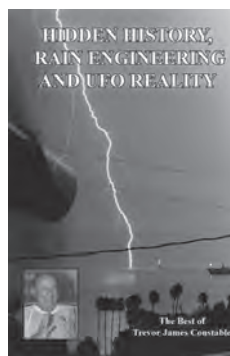

may at first seem abstract, wishful thinking, or even impossible; yet as the evidence unfolds, one may find that it does not require such a large leap of faith as first thought. The author believed this to be the most significant discovery in the entire field of religious knowledge, revealing what has been, until now, hidden away in our spiritual history. According to the author, we may at last be able to open ourselves to an entirely new and valuable consciousness. **ISBN 1585091510 • 103 pgs • 6x9 • \$12.95**

UFOs AND EXTRATERRESTRIALS

THE COSMIC PULSE OF LIFE: The Revolutionary Biological Power Behind UFOs, by Trevor James Constable. Updated and expanded Book Tree edition. Presents evidence that UFOs are mainly invisible and consist of both physical craft and living, biological creatures.

The author convincingly shows that our atmosphere is the home of huge, invisible living organisms that are sometimes confused with spacecraft when they became visible. Mr. Constable has photographed both types of UFOs with special infrared film, some are reproduced here. Despite his research, the general public and official ufology have a hard time accepting the evidence. In recent years teams of engineers and technicians in Italy and Romania, unaware of Constable's discoveries, obtained virtually identical infrared photos of UFOs, which were published in Italy. In 1996, NASA used ultraviolet-sensitive videotape to record swarms of invisible UFOs that looked just like Constable's earlier photos. Examples of NASA photos are contained in this update. Also covered are pioneers into life energies that play a big role in this research, including Wilhelm Reich, Rudolf Steiner, and Dr. Ruth B. Drown. Recommended for those interested in the higher realms of our physical reality. **ISBN 9781585091157 • 360 pgs • \$29.95**

HIDDEN HISTORY, RAIN ENGINEERING AND UFO REALITY: The Best of Trevor James Constable. Covers three research areas that span over a half-century in the life of Constable, who passed away in 2016. The rain engineering section documents his use

of the cloudbuster technology based on the work of Wilhelm Reich, along with the proof of success he experienced from around the world. If taken further, this technology could be a tremendous help to humanity. The hidden history area involves amazing heroics of military men. The chapters on UFOs cover flying, biological creatures that are shown to reside in the hidden infrared spectrum of our skies. Constable reveals them to be alive in their own right and resident to the earth rather than being piloted craft. This book shows that we have more to learn about ourselves and the world around us. **ISBN 9781585091485 • 260 pgs • 6x9 • \$22.95**

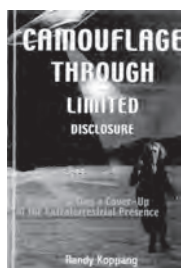

THEY LIVE IN THE SKY: Invisible UFOs Around Us, by Trevor James Constable (originally written under the pseudonym Trevor James). Constable's first full-length book reissued, which reveals otherwise hidden creatures and objects traversing our skies

using his groundbreaking infrared photo techniques. Also covers a series of telepathic communications the author had with what was claimed to be an extraterrestrial intelligence. He abandoned this telepathic research in future work because much of the information received could not be verified, and he felt it could later affect his other work on important scientific levels. Therefore, this book is entirely unique — mapping out a serious scientific pursuit of hidden objects in our atmosphere with the experience of strange, telepathic communications. This book also references the work of key UFO researchers of the time including Major Donald Keyhoe, George Adamski, Harold Wilkins and George Van Tassel. Includes 36 original photos, accompanied by a chapter devoted entirely to their study. **ISBN 9781585091522 • 306 pgs • 5.5x8.5 • \$24.95**

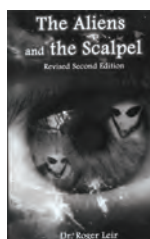

QUEST FOR THE INVISIBLES: The Discovery of Unseen Craft and Beings that Reside in the Invisible World All Around Us, by Nik Hayes. There exists an entire world around us that cannot be seen. The human eye sees only about 2.5% of the electromagnetic spectrum, so a number of people

are exploring the invisible world around us. Trevor James Constable was a pioneer who began this work in the California desert in the 1950s, photographing what he considered to be UFO-type objects and biological creatures traversing the skies in the infrared spectrum. Inspired by this work, Nik Hayes has taken things further by recording both in the infrared and ultraviolet realms, with video in addition to stills. The results of his first few years of work, conducted in the U.K., are revealed in this incredible book. Includes 50 photos. **ISBN 9781585091492 • 154 pgs • 6x9 • \$14.95**

CAMOUFLAGE THROUGH LIMITED DISCLOSURE: Deconstructing a Cover-Up of the Extraterrestrial Presence, by Randy Koppang. According to the author, from the 1940's to the present time the U.S. government

has involved itself in the deepest levels of secrecy involving an alien presence on the Earth. This book delves into these deeper levels and reveals exactly how and why this secrecy has been maintained. Two key researchers are also interviewed. Melinda Leslie claims that the military itself is involved with the abductions of important contactees with the purpose of gaining information from them about alien technology. Second is Bill Uhouse, who claims to have spent an entire 38-year career at the very heart of an Unacknowledged Special Access Project. He has made unofficial public disclosures about advanced technology and the goal of perfecting functional flying discs. Recommended to those looking for that "next level" of proof, in addition to skeptics who might change their minds. Something is going on, and this book will tell you in large part, exactly what that something is. **ISBN 9781585091102 • 159 pgs • \$15.95**

THE ALIENS AND THE SCALPEL: Scientific Proof of Extraterrestrial Implants in Humans, by Dr. Roger K. Leir. Contains new information on the subject of alien implant research and comes from a man who claims to have removed them from people for a number of years. Dr.

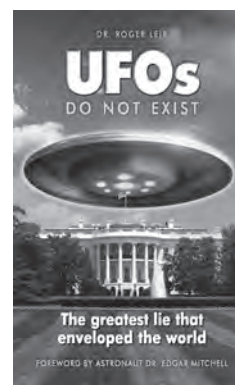

Leir was a Doctor of Podiatric Medicine and was a trusted professional in the medical field for many years, which is what makes this book so interesting and credible. Includes case studies and two Appendixes which contain a large number of supporting documents and charts of scientific data. **ISBN 1585091065 • 248 pgs • \$22.95**

UFO CRASH IN BRAZIL: A Genuine UFO Crash with Surviving ETs, by Roger K. Leir, DMP. According to numerous eyewitnesses an unidentified flying object crashed near Varginha, Brazil on January 20, 1996, and at

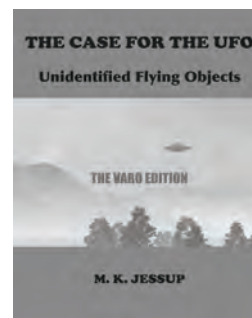

least two beings were reported to have survived. This was not a movie or a hoax. It was real. Join Dr. Roger Leir in Brazil as he takes you through his entire investigative journey. If you think UFOs are not real or that only crazy people believe in aliens, think again. This could be the most important UFO event to ever occur, involving an entire town full of witnesses. **ISBN 1585091057 • 152 pgs • \$14.95**

The Book Tree 1(800) 700-Tree

UFOs DO NOT EXIST: THE GREATEST LIE THAT ENVELOPED THE WORLD, by Dr. Roger Leir. "UFOs do not exist" are not the words of the author, but of government authorities. The evidence found here should once and for all expose this long-standing lie. Are

alien beings capable of abducting humans and implanting objects into our bodies that we do not know about? The evidence is the implants themselves — tiny metallic objects of unusual composition, surgically removed from people who claim to have histories of alien abduction. This book presents the most advanced research on the reality of alien implants which the author, an actual doctor, had originally thought was nothing more than a joke. For the first time, revealed in this book, eminent scientists have made legitimate off-world claims and proven them with hard evidence. Also covers worldwide sightings, an update on the amazing 1996 UFO crash case from Varginha, Brazil, and a revealing Foreword by Apollo 14 astronaut Edgar Mitchell. As this book was going to press, Dr. Leir passed away. We are grateful for his incredible work. **ISBN 9781585091423 • 200 pgs • 6x9 • \$19.95**

THE CASE FOR THE UFO: VARO EDITION, by M. K. Jessup. The original version of The Case for the UFO was first published in 1955. It is widely considered to be an excellent overview of UFO encounters and unexplained phenomena occurring

throughout human history. This version, known as The Varo Edition, appeared later that year when one copy, containing additional material not penned by the author, was anonymously sent to Admiral N. Furth, Chief of the Office of Naval Research. The notes and additional material reflected so much inside knowledge on the subject, that various military people took a special interest in the book. They had it privately published in very limited form, meant only for those with special access. It seems that three unknown individuals made color-coded notations that are preserved in this edition, now made available to the general public. Now available, this legendary book has been one of the most rare and sought after manuscripts to be found within the UFO field. **ISBN 9781585094387 • 168 pgs • 8.5x11 • \$29.95**

EXTRATERRESTRIAL ENTITIES AND TECHNOLOGY, RECOVERY AND DISPOSAL: Majestic-12 Group Special Operations Manual, by writers unknown. Considered by many to be a Top Secret government document written by and for a secret U.S. group, MJ-12, in 1954, which was later leaked to the public. Contains detailed guidelines 31

for military personnel to follow in the event of encountering and/or recovering extraterrestrial beings or crashed objects. There have been heated debates about its authenticity over the years and evidence has been presented on both sides of the argument. Due to its shadowy origins, we may never know with certainty if this is a genuine document or an elaborate hoax. Worth reading and investigating for oneself. **30 pgs • 8.5x11 • stapled binding • \$9.00**

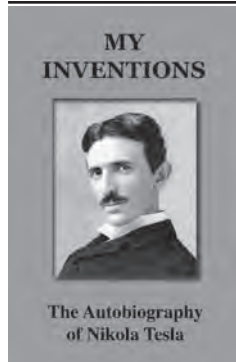

THE FLYING SAUCERS ARE REAL, by Donald Keyhoe. Was the first in-depth, authoritative look at the flying saucer phenomenon and is considered to this day to be one of the best books on the subject ever written. Extremely well researched with facts that were documented,

containing none of the disinformation and hype that has crept into the field over time. The author was a retired Marine Corps Major who became an aviation writer, and was therefore perfect for the job of researching and writing this book. Using his own knowledge and information from friends in the military, he came to the conclusion that UFOs originate from outer space and the U.S. military was engaged in a cover-up. Includes documented cases with credible witnesses. Much is shown on how and why secrecy was enforced. **ISBN 9781585092642 • 156 pgs • \$15.95**

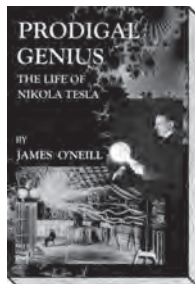

THE COMING OF THE GUARDIANS: An Interpretation of the Flying Saucers as Given from the Other Side of Life, compiled by Meade Layne. Where do UFOs really come from? Layne holds an inter-dimensional, etheric-based theory. Much of his information was corroborated by the scientific work of Trevor James Constable or came directly from intelligences channeled through Mark Probert, the greatest psychic medium of his time. Layne was scientific in his approach until hearing Probert's incredible messages, which independently verifies his research. Covers propulsion systems, vibrational frequencies, and the sudden appearance of these craft more clearly than any scientifically based book could ever do. **ISBN 9781585095254 • 100 pgs • \$14.95**

NIKOLA TESLA AND HIS INVENTIONS

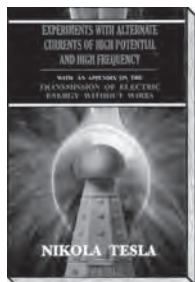

MY INVENTIONS: The Autobiography of Nikola Tesla. In this book, one of the greatest scientific minds to have ever lived, Nikola Tesla, presents his life story. It goes beyond his scientific achievements and recounts his childhood, early education, followed by

his most vital research and inventions. The book allows us to get to know him on a personal level & share in his great achievements. **ISBN 978158509884 • 92 pgs • 5.5x8.5 • \$8.95**

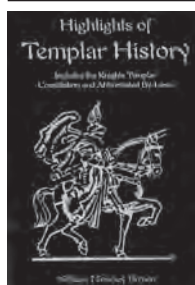

PRODIGAL GENIUS: The Life of Nikola Tesla, by James J. O'Neill. The first full-length biography written on the genius inventor, Tesla. The author was a Pulitzer Prize-winner and personal friend of Tesla, who once said the author understood him better than any man alive. Much of this information would not have been known had O'Neill not documented it. The genius of Tesla came from a mind that could see an invention in 3-D, from every angle, within his mind before he built it — perfectly. Most were electrical, with dozens now used worldwide. Much on his eccentric personality, his competition with Thomas Edison, and how he made his first million before age forty. Money was not important; nor was The Nobel Prize, which he refused to accept. Only the science mattered. **ISBN 9781585093083 • 336 pgs • \$26.95**

EXPERIMENTS WITH ALTERNATE CURRENTS OF HIGH POTENTIAL AND HIGH FREQUENCY, by Nikola Tesla. A lecture delivered by Tesla before the Institution of Electrical Engineers in London. Alternate Current (AC) was in large part created and perfected by Tesla, who

proved it to be more effective at transmitting power than Direct Current (DC). To this day, AC powers most things in our homes. Also outlines his work up to that time and allows us into the mind of a genius. The Appendix covers one of Tesla's most astounding inventions, entitled The Transmission of Electric Energy without Wires. **ISBN 9781585093151 • 176 pgs • \$16.95**

SECRET SOCIETIES / FREEMASONRY

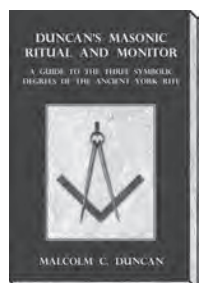

HIGHLIGHTS OF TEMPLAR HISTORY: Includes the Knights Templar Constitution and Abbreviated By-Laws, by William Moseley Brown. The Knights Templar is a secret society that has existed for centuries. Few books have been written about them from an insiders

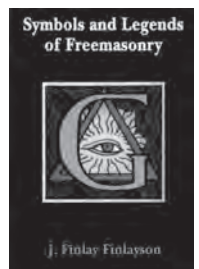

point of view. Originally released by the Grand Encampment of Knights Templar, USA, after seven years of historical research by an assigned committee. The author was a member of that committee and their purpose was to provide an accurate history of their organization. It was for members only and much information is not found elsewhere. We also added, from another source, their Constitution and Abbreviated By-Laws, as a service for potential members, or for those who seek knowledge of the inner workings of the Templars. **ISBN 1585092304 • 136 pgs • 6x9 • \$13.95**

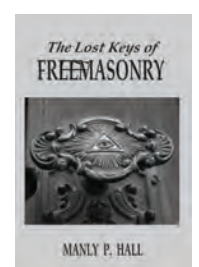

THE ORIGIN AND EVOLUTION OF FREEMASONRY: Connected with the Origin and Evolution of the Human Race, by Albert Churchward. The depth of research goes beyond the realm of Freemasonry, so one does not need to be a Mason to appreciate it. The origin and evolution of the human race is also covered well. Particularly informative are the areas on the stellar, solar, and lunar cults, the "greater mysteries," and the Egyptian god Horus. COMPLETE HISTORY OF THE ROSICRUCIAN ORDER, by H. Spencer Lewis. The author, a former high ranking Rosicrucian and prolific author on the subject, reveals the true history of the order. Many popular accounts put forth the idea that it was started in Germany in the seven-

REPRINTS OF RITUALS OF OLD DEGREES, by Albert Pike. Pike is best known for his classic Freemasonic work *Morals and Dogma*, but was responsible for a number of other important books. This one relates to the early development of the craft and

its rituals. Pike was the Sovereign Grand Commander of the Supreme Council, Ancient and Accepted Scottish Rite, Southern Jurisdiction, USA. This collection is virtually unknown today, but sheds light on the basis of Freemasonic degrees and rituals. Included are the Wigan Rituals, the Master Mark Mason Ritual, and the Maconnerie D'Yorke Rituals which include references to Joseph Cerneau, who had a competing version of the Scottish Rite. Includes the Knights Templar Ritual (the 1851 authorized revision, upon which the current one is based), and the Grand Maitre Ecossais degree, which puts forth the idea that the true secret of Freemasonry is the alchemical transmutation of the initiate. Also found here is an older version of the Royal Arch Exaltation Ceremony. This rare reprint should be of great value to Freemasonic Lodges, or for those interested in the origins and development of Freemasonry in general. **ISBN 9781585093274 • 172 pages • 6x9 • \$17.95**

THE THE LOST KEY: An Explanation and Application of the Masonic Symbols, by Prentiss Tucker. Symbols play a big part in our lives, but we often miss their full meaning. This book explains the meaning of Freemasonic symbols. Masons are mem-

bers of a longstanding fraternal order that functions as a mystical brotherhood. A number of rituals are performed as one progresses up the ranks, usually in the form of an initiation. Often times Masons may not fully understand the true purpose of the initiation. This book covers the symbols found within the first three degrees. SECRET SOCIETIES AND SUBVERSIVE MOVEMENTS, by Nesta H. Webster. One of the best books on secret societies ever written. Webster was an historical writer who wrote books on the French Revolution. After World War I she

was intrigued with the Marxist revolt, so wrote *World Revolution*, examining how and why people revolt. As her search went deeper, clear meanings surfaced behind our revolutions – and they involved an agenda by secret societies. This book lays out, in historical perspective, how these secret societies and subversive movements have operated from behind the scenes. Not all of them aspire to rule the world or manipulate politics or world currency, but there are some major ones, according to Webster, that are. As a respected writer and world historian, she provides some interesting proof with this book. **ISBN 1585090921 • 432 pgs • 6x9 • \$29.95**

SILENT WEAPONS FOR QUIET WARS: An Introductory Programming Manual, by Anonymous. This is the Top Secret manual said to be found by accident in 1986 by an employee of Boeing Aircraft. He bought a surplus IBM copier for scrap parts at a government sale and found the manual inside. It outlines a plan to control the masses through manipulation of industry, education and politics, and to divert the public's attention from what is really going on. Surprisingly, it is claimed that much of what is outlined has come to pass, and makes interesting reading for those exploring the deeper levels of our social structure and how it may be controlled or influenced. This Book Tree edition includes all of the important charts and diagrams not seen in other versions. It is an exact replica of the original, aside from some minor alterations to correct print quality. Found in this edition only is a new, four-page Introduction. It explains why we may never be certain of the true origin of this document, despite the fact that someone has stepped forward and claimed that they assembled it from multiple sources. **ISBN 9781585093809 • 66 pgs • 6x9 • \$11.95**

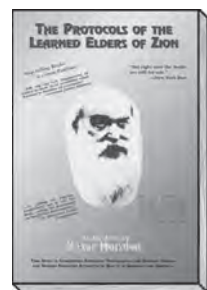

CULTURE AND ANARCHY: An Essay in Political and Social Criticism, by Matthew Arnold. This is the complete edition, which includes the 40-page Editor's Introduction. How does anarchy take hold in a culture and what can be done to

stop it? This well-known study is essential reading for those interested in how to create a harmonious growth of all facets of culture, which has become a challenge in modern times. Arnold promotes what he calls an "organic" society—one that evolves slowly, grows into maturity, and avoids making great leaps into new forms of change that could create trouble. There have always been those who wish to stir up unrest. If society can remain strong from its foundation, then anarchy will develop no foothold. Arnold provides a clear contrast between culture and unrest, and what may be needed to keep us going safely into the future, despite the increasing complexities in the world today. **ISBN 9781585093847 • 190 pgs • 6x9 • \$21.95**

THE EMPIRE OF "THE CITY," by E. C. Knuth. A behind the scenes look at the secretive international policies of the British government and how their successes allowed them to rise to the top of a vast secret order of world finance. The author claims to have pieced together enough information, found in this book, to show that a colossal financial and political organization is run from an area of London called "The City." Due to its power, it is claimed by the author that The City operates as a super-government of the world, and plays some kind of role or has influence in virtually every major world event. **ISBN 9781585092628 • 112 pgs • \$13.95**

THE PROTOCOLS OF THE LEARNED ELDERS OF ZION, translated by Victor Marsden. Supposedly outlines a plan by elders of the Jewish Nation to rule the world—to take control over key organizations, including assets, in order to manipulate world affairs in their favor. After careful study we do not endorse this book as being valid. It is considered to be an unquestionable fraud to virtually everyone who sees the evidence, found in the Introduction. We have no affiliations, pro or con, with this book and our only motivation is to publish the truth. Other versions exist which have caused readers to believe that the contents are true, which spread lies and hatred. We offer this book as a means for people to understand how nations and people can be duped into thinking and doing insane things and taking part in mass hysteria, which this book once caused. Our goal is that past mistakes will not be repeated. It seems we remain the only publishing company offering this title with a disclaimer, so that it may be studied and understood in an accurate context. If read as a novel, from which much of the content was pirated from, it still makes interesting reading. **ISBN 1585090158 • 312 pgs • 5.5x8.5 • \$24.95**

The Book Tree 1(800) 700-Tree

THE SECRET WORLD GOVERNMENT OR "THE HIDDEN HAND": The Unrevealed in History, by Maj. Gen. Count Cherep-Spiridovich. Rants against Freemasonry, Satan, international banks, Napoleon, and more. It makes a series of unsubstantiated claims against Jews and possibly substantiated ones against the Rothschilds of his time. With the author's personal biases put aside, there remains some good historical information about government, religion, world power and money. The publishers do not agree with the author's biased opinions, but wish to make the remaining facts available to those interested. Conspiracy buffs will truly enjoy this book. In its entirety, it should not be taken at face value—the truth that exists within it must be carefully extracted. **ISBN 158509093X • 203 pgs • 6x9 • \$17.95**

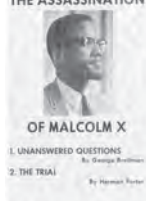

THE OPEN CONSPIRACY: What Are We to Do With Our Lives, by H. G. Wells. A guidebook on world management, which Wells believed should be orchestrated through what he called the "Open Conspiracy." It is fully outlined here, designed to be run by separate groups working together, as opposed to being run independently. Is this required reading for the world's most powerful people? Maybe it is. Or maybe it should be. Wells was a visionary genius whose work should be paid attention to. Chapters include The Idea of the Open Conspiracy, We Have to Clear and Clean Up Our Minds, The Revolution in Education, Religion in the New World, What Mankind Has to Do, Modern Forces Antagonistic to the Open Conspiracy, The Resistances of the Less Industrialized Peoples to the Drive of the Open Conspiracy, The Open Conspiracy Begins as a Movement of Discussion, Development of the Activities of the Open Conspiracy, Human Life in the Coming World Community, more. **ISBN 9781585092758 • 160 pgs • illustrated • \$14.95**

THE SALVAGING OF CIVILIZATION: The Probable Future of Mankind, by H. G. Wells. An important work which concerned people throughout the world, including world leaders, should pay attention to. Wells was a visionary genius who knew the strengths and weaknesses of men's minds and the proclivities of human nature. He could see where the world needed to go after the devastation of World War I and, in effect, where it still needs to be going today. He predicts how a political reorganization must take place with a united world, and how the general masses lack any will whatsoever to make it happen. Chapters include The Probable Future of Mankind, The Project of a World State, The Bible of Civilization, Schooling of the World, more. **ISBN 9781585092741 • 204 pgs • \$17.95**

BLACK STUDIES

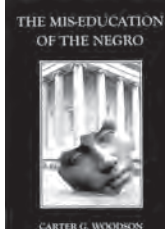

THE ASSASSINATION

THE ASSASSINATION OF MALCOLM X: Unanswered Questions, by George Breitman and Herman Porter. Reprints twelve articles about the assassination of Malcolm X on February 21, 1965, and the trial, from January 21 to

March 11, 1966, of three men charged with the killing. The defendants were sentenced to life in prison. The articles were previously from *The Militant*, a weekly socialist newspaper. The Porter articles reveal how he tried to have the role of the police brought out through defense attorneys, but they deliberately avoided doing so. If the New York police were involved in the assassination, these articles show that it could not have been from their own initiative, but from the direction of the government in Washington and/or the CIA. **31 pgs • booklet • 5.5x8.5 • \$5.95**

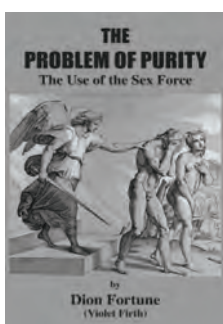

STOLEN LEGACY: How the Wisdom of Ancient Egypt was Transformed into Greek Philosophy, by George James. For description see duplicate listing under "Philosophy," page 29. **ISBN 9781585093489 • 220 pgs • 6x9 • \$16.95**

THE MISEDUCATION OF THE NEGRO, by Carter Woodson. Popular title clarifying the importance of black history and culture. Points out the shortcomings of a "Euro-centric" teaching structure that neglects

black culture and heritage. This has resulted in mis-educated and caused many to live in complete contradiction to their own best interests. Outlines how and why the mainstream educational system destroys the personal growth of blacks and how the blame can be equally placed on black professionals – those who become successful and then enter into a corporate world that helps only themselves, without making efforts to help or correct the problem. Strongly points out the importance of black history and culture, and its absence in mainstream educational systems. **ISBN 9781585093205 • 219 pgs • \$17.95**

SEXUAL RITES & PRACTICES

THE PROBLEM OF PURITY: The Use of the Sex Force, by Dion Fortune (Violet Firth). The author, Dion Fortune, is well known for having been one of the greatest occult writers of her time. She was lesser known

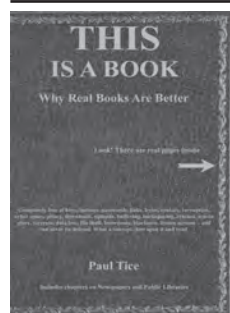

for her profession as a psychotherapist, where she helped numerous clients with sexual issues. Her spiritual background allowed her to draw connections between human sexuality and who and what we are as spiritual beings. This book explains how and why the control of the sexual force may allow us to harness its energy. In doing so, it becomes possible to transform ourselves and evolve in higher spiritual ways. There is a spiritual nature to sex that few people will acknowledge. The author not only shows that it is there, but reveals how one may use it for a higher purpose. Topics include sexual motivation, celibacy, the purpose of the sex instinct, homosexuality, the wisdom of love, masturbation, modesty, abnormal forms of sexuality, and more. This book may serve as a study guide for individuals, or by therapists or counselors. Now back in print, it was originally published under the author's real name, Violet Firth. **ISBN 9781585094554 • 128 pgs • 5.5x8.5 • \$12.95**

THE THIRTY-SIX DRAMATIC SITUATIONS, by Georges Polti. This is the essential reference book for storytellers of every kind. It has been chosen by serious writers and those involved in the dramatic arts for over a century because it provides a more complete under-

standing of story structures and plot creation than any other book. It helps one to expand creative boundaries, remove writer's block, and increase their power to deliver a compelling story. These 36 dramatic situations are not actually plots, but the foundational *building blocks* for thousands of creative plots that one can produce. It is also useful to actors and directors, providing a new perspective of the added dimensions found in a story or script. To have clearly identified 36 dramatic situations with few other alternatives was pure genius and gave this book its credibility as being, arguably, the main reference work for the entire field of storytelling. **ISBN 9781585093731 • 200 pgs • 5.5x8.5 • \$16.95**

THE JUMPING FROG AND 18 OTHER STORIES: 19 Unforgettable Mark Twain Stories, by Mark Twain. This collection was out of print for many years, found and reprinted by The Book Tree. *The Jumping Frog* launched Twain's career. He heard the story in an old saloon in the Angel's Camp mining town of California, told by a bald-headed local who relayed it in a deadpan tone, with no hint of excitement or humor. Twain sent it to a friend in New York and it was published in the prestigious Saturday Press, then reprinted by newspapers in Europe and America. THE WORLD SET FREE, by H. G. Wells. This chilling, futuristic novel, published in 1914, was prophetic on a major scale. Wells predicts nuclear warfare years before research began and describes the chain reactions involved and the resulting radiation.
